W. N. SCARFF'S
FRUIT AND FARM
SEEDS

St. Regis
EVERBEARING
RASPBERRY

PRICE OF STRONG, WELL ROOTED PLANTS :

Each, 25 Cents ; 6 for \$1.00 ; 12 for \$1.50, postpaid ; 100 for \$10.00 by express.

This valuable, new, everbearing Red Raspberry should be planted in every garden. It is a perfect wonder to bear fruit. Unlike any other Raspberry, the St. Regis yields a crop of fruit the season it is planted. Plants of it planted in early April gave ripe berries on June 20th of the same year. For four weeks thereafter the yield was heavy and the canes continued to produce ripe fruit freely without intermission, until the middle of October. The berries were large and beautiful, firm and full flavored to the very last.

W. N. SCARFF, NEW CARLISLE, OHIO.

TWO SPLENDID INTRODUCTION OFFERS

Our model collections become more popular each season. They are now planted in almost every state in the union and there is nothing we offer that is so generally satisfactory and profitable. They are genuine bargains. Every one is highly pleased with them.

Remember with each Garden or Orchard collection you get free 50 grains of prize winning strain of Corn, or 100 grains if you order both a Garden and an Orchard collection. This is alone worth the money expended. It was grown from the 10 ears that we paid \$350.00 for.

**OUR
MODEL
FRUIT
GARDEN**

FROM
W. N. SCARFF
NEW CARLISLE
OHIO

OUR MODEL \$5.00 FRUIT GARDEN.

BY EXPRESS, PURCHASER PAYING CHARGES.

VARIETIES so arranged as to have fresh fruit on your table from May 10th to November 1st. Think of such a treat for only \$5.00; and fine fruit, too; just as fine as ever went on the table of the lords of Creation. If you cannot be a millionaire there is no reason why you *can* not live like one. If properly taken care of, you may reasonably expect a yield of 25 to 40 bushels annually from this model garden.

Will plant about $\frac{1}{2}$ of an acre of ground. Why not interest your boys and girls in profitable horticulture. It is worth five times its cost. A Book on Transplanting FREE.

1. 25 Pineapple Strawberries	9. 3 Victoria Currants	17. 25 Ward Blackberries
2. 25 Stevens Late Strawberries	10. 3 Wilder Currants	18. 25 Taylor Blackberries
3. 25 Senator Dunlap Strawberries	11. 3 White Grape Currants	19. 25 Mersereau Blackberries
4. 25 Heritage Strawberries	12. 25 Cumberland Raspberries	20. 12 Eldorado Dewberries
5. 2 Houghton Gooseberries	13. 25 Kansas Raspberries	21. 3 Worden Blue Grapes
6. 2 Downing Gooseberries	14. 25 Miller Raspberries	22. 3 Concord Blue Grapes
7. 2 Josselyn Gooseberries	15. 12 Haymaker Raspberries	23. 3 Wyoming Red Grapes
8. 3 London Market Currants	16. 25 King Raspberries	24. 3 Niagara White Grapes

TWO GOOD INVESTMENTS.—Either one of these offers will pay you 500% on the investment and you will be simply astounded by the fine plants and trees we send you for so little money. Send an order to-day.

OUR MODEL \$5.00 ORCHARD. ALL FINE TREES 4 TO 5 FEET HIGH.

The model Fruit Garden we offer has met with such universal favor among our customers, that we now offer an equal bargain in an orchard collection—which is just what you want—no mistake about it. Whether you live in the city or country, this is a bargain for you.

The trees in our model orchard collection are 2 and 3 years old—first-class in every respect. Size 4 to 5 feet high. Same class of tree as we fill our regular orders with. It is simply to get our stock introduced into new territory that we make these splendid offers. Positively no change made in either collection.

Regular Catalogue Price, \$10.00. Our price, you pay Express or Freight charges, only \$5.00. We want to introduce our trees with you, hence this very liberal offer.

1 Rome Beauty Apple	1 Duchess Pear	1 Early Crawford Peach
1 Rambo Apple	2 Burbank Plum	1 Late Crawford Peach
1 York Imperial Apple	2 German Prune Plum	1 Kalamazoo Peach
1 Winter Banana (new)	2 Bradshaw Plum	2 2 Gov. Wood
1 Early Harvest Apple	2 Lombard Plum	2 Early Richmond Cherry
1 Fall Maiden Blush Apple	2 Abundance Plum	2 Montmorency Cherry
2 Kiefer Pears	2 Shropshire Damson Plum	2 May Duke
1 Bartlett Pear	1 Crosby Peach	2 Dye House Cherry

Book on transplanting free with each orchard and garden, also 50 grains of Prize Winning Strain of Corn free with either collection or 100 grains with two collections.

CARFF'S STRAWBERRIES

Choice Varieties Suitable for Home Garden and and Fancy Market. The MONEY MAKING Kinds

Our varieties of Strawberries are selected especially for market and home garden. We carefully eliminated ordinary and common kinds, and selected a list of the very best that any one can grow. You cannot make a mistake, as every variety we catalog is absolutely right.

All varieties marked (per) are perfect bloomers, and do not need to be pollenized. The other varieties not marked should have every fourth row planted to a perfect blooming sort. The price per dozen is postpaid. The price per 100 and 1,000 is by express not prepaid. We can send 100 or more plants by mail for 15 cents extra per 100 to pay postage.

Remember 10 grains of Sweepstakes Corn for each \$1.00 purchase holds good on Strawberry plants and everything else you purchase. Grow some prize winning Corn for your corn show. This seed is the right kind.

King Edward

Is no doubt the Largest Finest Flavored and most productive STRAWBERRY grown.

CERTIFICATE of MERIT
by
Rhode Island Horticultural Society

The following is taken from the Ohio Agricultural Experiment Station Bulletin, of Wooster, Ohio:

KING EDWARD—Large, bluntly conical, very slightly necked, regular, uniform; color bright, fresh crimson when fully matured, glossy and attractive. Flesh light in color, firm, fine-grained, mild, sweet, and good in flavor. Flowers perfect. First blossoms May 7; full bloom May 21. First ripe fruit June 9; period of heaviest fruiting June 15 to 23; largest single picking June 18—three and one-half quarts; last picking June 25; total yield for the season eleven and one-half quarts. Plants large, vigorous, light green in color, making a beautiful fruiting row. A very promising variety originating in Holmes County, Ohio.

Price, \$1.00 per dozen, postage paid; \$1.50 per hundred, by express not prepaid; \$10.00 per thousand, by express, not prepaid.

STEVEN'S LATE CHAMPION. (Per.) This variety makes an abundance of strong plants with good foliage that protects the blossoms and fruit from frost. Uniform in size; color good red, and firm enough for shipment, as it is one of the very best to hold up after picking. Its season to ripen is about the same as Gandy. Price, 25c. per dozen; 50c. per 100; \$4.00 per 1,000.

MARSHALL. (Per.) Of the very largest size; color very dark rich crimson to the core; flesh fine grained and of a delicious flavor. Price, 25c. per dozen, 50c. per 100; \$4.00 per 1,000.

The Greatest Strawberry of the Age NATURE'S WONDERFUL GIFT TO MANKIND

ORDER EARLY, AS WE DID NOT HAVE ENOUGH PLANTS TO GO AROUND LAST YEAR.

KEVITT'S WONDER

NEW CREATION

THE MOST DISTINCTIVE
AND ORIGINAL OF ALL
AMERICAN STRAWBERRIES;

UNLIKE ANY OTHER; THIS
NEW TYPE HAS NEVER
BEEN DREAMED OF BE-
FORE; NOTHING LIKE IT
HAS EVER BEEN INTRO-
DUCED OF THE PINE VA-
RIETIES.

✓ **KEVITT'S WONDER STRAWBERRY** (Per.) This berry is absolutely new and distinct from any other Strawberry. It is a perfect blooming variety; berries large, with seeds of bright yellow, making it a perfect beauty. The flavor is fine and the berries are just the right shape and size to make them show up well in the crate, always commanding the top price. The introducer claims they can be safely sent in a common express car, from New York to Chicago, and open up in fine shape. This is a very strong point in its favor, as a good shipping berry is very essential for commercial purposes. Fruit stems short and stocky and so full of berries that they are weighted to the ground. Season medium about the same as Glen Mary. Berries bright red with a long neck, parting readily from the calyx. Very few seeds and sweet as a sugar plum. Every plant grower, every gardner must have some of these new strawberries.

Price of fine plants, 75c. per dozen, postpaid; \$2.00 per 100 by express; \$15.00 per 1,000.

GLEN MARY. (Per.) Vigorous and prolific. Berries flattened and rounded, but seldom cocks-combed. Dark, though an occasional specimen is not well colored. Flesh light red, moderately firm and of good quality to eat. In productiveness it seems to excel almost all varieties of its season. Considered by many growers as one of the best large varieties, although a very rough berry, its immense size makes it a valuable sort. Price, 25c. per dozen; 50c. per 100; \$4.00 per 1,000.

BUBACH. Large size, handsome and extremely productive. A favorite market sort. Price, 25c. per dozen; 50c. per 100; \$4.00 per 1000.

GREENVILLE. Considered by many an improvement on Bubach, especially in point of firmness and vigor of plants, having also a fine color. Has been favorably reported from nearly every experimenter in small fruits in the country. A very fine variety. Price, 25c. per dozen; 50c. per 100; \$3.00 per 1,000.

PINE APPLE. (Per.) This makes the seventh season we have offered this valuable new strawberry and have as yet failed to hear a single complaint. If you have not yet planted it send your order at once. It has a rich pine apple flavor. Think of it. Strawberries, Pine Apples, could there be a more luscious combination of flavors. It is within itself a three-fold pleasure, viz., to look upon, to smell and to eat. A vigorous grower; berries large size, round and well shaped, beautiful crimson color, about same firmness as Haverland; a perfect bloomer and an abundant bearer, valuable, alike for both home garden and market. Its great beauty and decided pine apple flavor make it a variety that commands a higher price on the market than the ordinary strawberry. We have fine plants of Pine Apple and we will send only fresh dug ones so you will surely succeed. We hope we may have an order from each and every person receiving our catalog for Pine Apple Strawberry Plants, for it will be an advertisement for us that will do us good. In view of this, we are offering them at a very low price for a variety so valuable. Price 50c. per dozen, postpaid; 75c. per 100; \$5.00 per 1,000.

Prominent Points of Merit—Nothing Wanting

SIZE—Uniformly large to very large.

SHAPE—Beautiful, tapering and regular.

SOLIDITY—Equal to any.

COLOR—Lustrous, dark shining crimson.

BLOSSOM—Staminate—perfect.

FLAVOR—Delicious and unsurpassed.

YIELD—Prodigious.

PLANT—Vigorous and rampant—deep rooted and resisting.

The plant is very large, of extremely heavy texture—some single crown plants carrying foliage with a spread of 20 to 22 inches; persistent in propagation, deep rooted and extremely free in fruiting, beginning to ripen its fruit about early midseason and continuing until very late.

The berry is dark shining crimson in color to the center; has a staminate or perfect blossom; carries an unusually large, heavy green calyx; extremely large from the first pickings to much above the average size for the main crop, and continues long after the better known varieties are gone, yielding abundantly throughout the season. Prices, 50c. per dozen, postpaid; 75c. per 100; \$4.00 per 1,000, by express.

FENDALL STRAWBERRY. (Imp.) Its claims by the originator: First, Great vigor of plant growth. Second, Large size and delicious flavor. Third, Length of bearing season. Fourth, Wonderful productiveness. Fifth, Splendid root system. Sixth, Beauty and symmetry of form. Seventh, Yielded at the rate of 525 bushels per acre. Eighth, Col. Brackett (Chief of Plant Division of the Agricultural Department, Washington, D. C.) picked and carried a quart of Fendall to Washington which required but nine berries to fill a quart.

Fendall is a good grower on our ground; produces very large fruit; begins ripening fruit early and continues through a very long period. The plants make a clean healthy growth, plenty of runners, and is a desirable fruit. Price, 50c. per doz., postpaid; \$1.00 per 100; \$5.00 per 1,000 by express.

WARFIELD. The plant is a very vigorous grower, exceedingly productive, bears picking daily. The berries are of good quality, dark color, medium size, firm, regular in size; sub-acid. A very profitable berry for nearby or distant market. Season early. Price, 25c. per dozen; 50c. per 100; \$3.00 per 1,000.

SENATOR DUNLAP (Per.) A well-tested, wonderfully-productive variety, one of the safe sorts to plant everywhere and sure to take a high place among the prominent standard sorts. Plant resembles Warfield, rampant runner, should be restricted in its production of plants, fully equal to Crescent and Warfield in its ability to succeed under all circumstances. Fruit good size, regular form, beautiful bright red, glossy, firm, splendid keeper and shipper, excellent quality; one of the best for canning; ripens early and continues a long time. It promises to stand at the head in its wonderful ability to ripen a good crop under almost any condition of drought or neglect. Price, 25c. per dozen; 50c. per 100; \$4.00 per 1,000.

BEDER WOOD (Per.) It ripens about three days behind Mitchell's Early, and a full week ahead of Crescent; gives heavy pickings from the start, and holds out until the rush of midseason. Price, 25c. per dozen; 50c. per 100; \$3.00 per 1,000.

CORSICAN. (Per.) A distinct new variety of value for market and home garden. The fruit is dark crimson color, rich and delicious flavor, large size and quite firm. The foliage is perfectly healthy, making large plants that will protect the fruit from sun and rain. It is a good grower making the right number of plants and an enormous yield of the finest, largest berries imaginable. Our customers are highly pleased with this great berry. Corsican is a wonderful berry. It is a great pleasure and very profitable to haul the largest berries that go to market. That kind always sells and at the very top price. Corsican is not only big, it is a beautiful color, a great yielder, a good foliage to resist disease and drought and even weed and neglect. Price, 25c. per dozen, postpaid; 75c. per 100; \$5.00 per 1,000.

MARIE. The plants are good growers, making plenty of runners for a good crop and show no signs of disease. The blossom is imperfect; season same as Bubach and Haverland. Equally as large as Bubach, Glen Mary or Brandywine, and yielding with any variety in our 40-acre fruit plantation besides it is the most attractive in appearance when picked and ready for market of any in our entire collection. The berries are round as a ball, dark crimson in color; flesh dark and quality first class holding up in size to the very last picking. Price, 25c. per dozen; 75c. per 100; \$5.00 per 1,000.

Other valuable standard varieties. Price 25c. per dozen postpaid, 50c. per 100, \$4.00 per 1,000. (15c. per 100 plants additional if wanted by mail postpaid.) Rough Rider (per.), Haverland, Brandywine (per.) Gandy (per.) Sample, Excelsior (per.), Mitchell's Early (per.), Wm. Belt (per.), Nettie.

FALL BEARING STRAWBERRY PLANTS

Much is being said about the Fall Bearing varieties.. We have them, and can supply the leading sorts. Plants set out this spring will bear fruit this fall. Keep all blossoms picked off until July.

Pan American (per.)	\$1.50 per dozen	\$ 8.00 per 100
Americus (per.)	2.50 per dozen	20.00 per 100
Teddy R.	1.00 per dozen	5.00 per 100

R A S P B E R R I E S

CULTURE. Raspberries will do well on any upland soil that will produce a good corn crop. Land should be thoroughly prepared and well enriched. Keep well cultivated and free from weeds and suckers. As soon as they have done bearing, cut out the old wood to give more vigor to the young canes. Plant in rows six feet apart, and two and one-half feet apart in rows. Avoid wet lowlands. We grow the finest Raspberry Plants in the World. There is no Doubt But Our Varieties are the Kinds

That Make Money. They have Done it for Us.
They Will do it for You.

MUNGER. Another season only proves the superiority of this grand new black cap. It is no doubt the very best of the late kinds. Fruit very large and firm, juicy and splendid for canning. Canes upright and strong growers. Fruit easily sells for 50c. per bushel in advance over other black caps. An improvement over Gregg, which it resembles in cane and fruit. You can safely plant it for either home use or market. Price, 50c. per dozen; \$1.50 per 100; \$12.00 per 1,000.

CUMBERLAND In hardiness and productiveness it is unexcelled by any other variety. In size, the fruit is simply enormous, far surpassing any other sort. The berries run seven-eighths and fifteen-sixteenths of an inch in diameter, and are of such handsome appearance that their fruit sold for 10c. per quart, when other varieties were selling for 5c. to 7c. per quart. In spite of its unusual size, the fruit is possessed of its great firmness and is thus well adapted for standing long shipments. It follows Palmer and Souhegan and precedes Gregg a short time, making it a mid-season variety. The bush is exceedingly healthy and vigorous, throwing up stout stock canes, well adapted for supporting their loads of large fruit. It has also shown itself remarkably free from that scourge of its family, anthracnose. Large growers report yields of two and three times as much per Acre as Ohio, under same conditions, and far ahead of other varieties. Price 50 cents per dozen; \$1.50 per 100; \$12.00 per 1,000.

BLACK DIAMOND. A berry very popular among western New York growers, a fruit center that stands among the very first. Valuable for evaporating, canning and home consumption. One of the strongest growers making an abundance of good, clean wood which ripens up well in the fall, thus enabling it to withstand the cold winters remarkably well. Fruit jet black and juicy with few seeds. Season about the same as Kansas. Well worthy of a trial. Price, 50c. per dozen; \$1.50 per 100; \$12.00 per 1,000.

Earhart Everbearing Raspberry.

EARHART EVERBEARING.
Greatly reduced from actual photograph.

EARHART EVER BEARING RASPBERRY. Actually bears continually from June 1st until killed by frost in September. The canes are literally loaded with fruit in all stages from bloom to ripe fruit. Creates the greatest surprise when shown at fairs and horticultural societies. Has no equal as an ever-bearing variety. A great novelty and a very valuable one as well. Price, 20 cents each; \$2.00 per dozen, mail postpaid.

GREGG. An old variety of merit too well known to need description. Price, 25 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

CONRATH. A Blackcap coming originally from Michigan. Compared with Gregg, they are two weeks earlier, hardier, less subject to disease, and fully equal to that variety when at its best in productiveness and quality of fruit." Price, 25 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

4 Moneymakers
King Red, Haymaker Purple
Plum Farmer, Black Diamond.

KANSAS. A variety of worth. It ripens a few days after the Eureka, and is of large size. Canes quite thorny and covered with thick bluish bloom. Price, 25 cents, per dozen; \$1.00 per 100; \$8.00 per 1,000.

PALMER. Perhaps the best of the earlier varieties of earlier kinds. Fruit large and good size. Bush a vigorous grower, and very productive. Price, 25 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

HOOSIER. A new black cap of considerable value—early, hardy and prolific. Price 50c. per dozen; \$2.00 per 100; \$15.00 per 1,000.

EUREKA. Ripens early with Palmer; fruit firm, of large size, equalling Gregg; superior quality, free from bloom, making it very attractive in fruit box; brings the highest market price. Strong grower, very hardy, healthy foliage and in some localities stands at the head of productiveness. Price, 25 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

PLUM FARMER. A variety from Northern New York, and a few days later than Palmer; maturing the entire crop in a very short period, making one of the most profitable early market sorts. The berries are thick-meated, firm with a bloom similar to Gregg. Berry large and very attractive when picked ready for market. Worthy of trial in the home garden and commercial field. Price, 50 cents per dozen; \$2.00 per 100; and \$15.00 per 1,000.

Ten-acre block Raspberries in Fruiting season—over sixty pickers at work. Cumberland, Black Diamond, Haymaker, King and Kansas make a good list for market.

Red and Purple Raspberries, Very Profitable Sorts for City Markets and Most Productive.

HAYMAKER. This valuable new raspberry is certainly the greatest acquisition of years in raspberries of its class. From actual figures Haymaker returned a net profit of over \$300.00 per acre. Growers coined money from it. The Haymaker is a purple cap not so dark as Columbian or Shaffer, larger and much firmer than either of those varieties, never crumbles and stands up well in shipping. It is a berry to grow for either home use or market. The originator has found it the most profitable berry ever raised for market and has never yet been able to supply the local demand. Recommended by experiment stations and leading Horticultural Societies everywhere. It certainly is a leader. Price 10c. each; 75c. per dozen; \$2.00 per 100; \$17.50 per 1,000.

"HAYMAKER"

THE NEW
RASPBERRY

THE NEW CARDINAL RASPBERRY. This wonderful berry is a surprise in the fulness of its merits—its great growth, extreme hardiness, and the exceeding productiveness of its choice purple, pure-flavored berries. It will pay. It is not a novelty, but a variety of great merit. The new Cardinal will grow ten feet, and bears in proportion. Leading horticulturists who have seen this berry say that it is one of the wonders of the century, so far exceeding all others as to put it entirely beyond comparison. Judge Wellhouse, president of Kansas State Horticultural Society, said at the meeting of the society that the introduction of the Cardinal Raspberry would add millions to the wealth of the farmers of the country because of its inherent great vigor and exceeding productiveness. Price, 10 cents each; 75 cents per dozen; \$2.00 per 100; \$17.50 per 1,000.

NEW CARDINAL RASPBERRY.

MILLER'S RED. Very early. Berries bright red, large and hold their size to the end of the season. Very firm, hence valuable to ship to distant market. Price 25c. per dozen; \$1.00 per 100; \$8.00 per 1000.
LOUDON. The superior points of this excellent red raspberry are vigor of growth, large fruit; beautiful rich dark, crimson color; good quality and marvelous productiveness and hardiness. Season medium to late. Price, 50c. per dozen; \$2.00 per 100; \$15.00 per 1,000.

CUTHBERT. A leading market variety for main crop. Price, 25c. per dozen; \$1.50 per 100; \$10.00 per 1,000.

COLUMBIAN. A purple variety once very popular, but now superseded by Cardinal and Haymaker. Price 50c. per dozen; \$1.50 per 100; \$12.00 per 1,000.

Note.—If raspberries are wanted sent by mail add 10c. per dozen; 30c. per 100 extra for postage except when marked postpaid.

ST. REGIS EVERBEARING

BERRIES FROM JUNE UNTIL OCTOBER

A VERY VALUABLE NEW RED RASPBERRY. IT IS IN A CLASS BY ITSELF AND NO FRUIT GROWER CAN AFFORD TO BE WITHOUT IT. OUR PLANTS ARE PURE STOCK. LOOK OUT FOR SUBSTITUTES OF THIS VARIETY.

Raspberries for four months! That's what you get when you plant St. Regis—the new everbearing variety. Moreover, they are not only raspberries, but raspberries of the very highest grade—in size, in brilliant crimson color, in firmness, in flavor.

The variety has been aptly termed 'the early 'till late' variety; for it is the first red raspberry to give ripe fruit, while it continues to produce berries without intermission until late in October.

St. Regis is of pure American blood and of ironclad hardihood; the canes enduring the severest cold uninjured and are wonderfully prolific. Its foliage never suffers by sunburn or scald; nor is its growth impaired by the heat and drought of summer.

In addition to the bright crimson color and large size of the fruit, it is so firm and rich in sugar that it will stand shipping two hundred miles, arriving at market in first class order; and it can readily be kept in perfect condition for several days after being gathered. In brief, it is such a marvel as to size, beauty and excellence.

The merits of this truly reliable, everbearing raspberry may be summarized as follows:

1. It is the earliest of all red raspberries; beginning to ripen from June 15th to 20th—just as the strawberry crop is waning.
2. It is wonderfully prolific; the first or main crop being far greater than that of any other red variety known, (equaling the most prolific black cap or purple can sort.)
3. It gives a crop of fruit all summer and autumn, fruiting on the old canes in generous quantities until late in August. By this date, berries begin to ripen upon the young, i. e., current year's canes, which continue to produce berries in increasing numbers until late autumn; in fact, until severe frosts occur.
4. The berries are of a bright crimson, of large size and of surpassing quality—rich, sugary with full raspberry flavor. They are of exceedingly meaty, firm texture and keep in good condition longer, after being gathered, than any other red raspberry. As a shipper it is unexcelled.
5. The canes are of stocky, strong growth with a great abundance of dark green leathery leaves, that never scald nor sunburn.
6. It succeeds upon all soils, whether light and sandy or cold heavy clay and the canes are absolutely hardy—always and everywhere—so far as tested.

Price, each, 25c.; dozen, \$1.50, 100, \$10.00.

CAUTION.

NEVER PLANT SMALL FRUITS OF ANY KIND ON SOD LAND, AS INSECTS ARE SURE TO DESTROY YOUR PLANTS FOR YOU. THE BEST SOIL FOR PLANTING IS GOOD, RICH, WELL DRAINED LAND THAT WAS PLANTED THE YEAR PREVIOUS TO CORN, POTATOES, MELONS OR OTHER CULTIVATED CROP.

HERBERT RED RASPBERRY

Originated in Canada. It stands severe winters, even 40 degrees below zero, absolutely uninjured, and has never failed to produce a heavy crop of the most delicious fruit. It is a recognized fact that the farther north any fruit is grown, the better is its quality, and this 'Child of the North Land' is no exception to the rule. The fruit is as large as the largest. It is as rich and highly flavored as the best, and far exceeds any other kind in hardiness, rugged, thrifty constitution of plant, and is very productive.

Price, good plants, 15c. each; \$1.50 per dozen; \$7.50 per 100.

KING. The earliest Red Raspberry on record. It is the early Red Raspberry that makes the big money—often sell for 25c. per quart. You want to add this one to your collection.

"Round, medium size; light crimson colored; firm and of excellent quality. A seedling of Thompson and ripens about the same time, but larger and more productive."

King is in a class by itself. Nothing compares to it in yield, beauty, firmness or size. Supply very limited, order at once. Our plants are genuine. Price, 50c. per dozen; \$1.50 per 100; \$12.00 per 1,000.

ROYAL PURPLE

A purple variety from "Hoosierdom" for which \$1,000.00 was paid simply for the control of the plants. It is iron clad as regards to hardiness. A deep red

color far superior in this respect from Columbian and Schaffer. Very firm, very late, very large, and sells at highest market price.

Price 25c. each, \$2.00 per dozen, \$10.00 per 100.

LOGAN BERRY

THE LOGAN BERRY. A hybrid between the Raspberry and Blackberry. The fruit is as large as the largest Blackberry, and is produced in immense clusters. The color is clear, dark red. It partakes of the flavor of both the Blackberry and the Raspberry—mild, pleasant, vinous flavor, delicious and peculiar to this berry alone. Seeds small, soft and few. Berries very firm, and carry well. Strong grower; enormous bearer. Fruit ripens early, just after Strawberries. Not hardy north of 40th parallel. Price, 20 cents each; \$2.00 per dozen, by mail, postpaid.

25 YEARS—SAME LOCATION—GROWING NURSERY STOCK, FARM SEEDS, ETC. AT IT EVERY DAY. WE ARE PROUD OF THE REPUTATION BUILT DURING THIS PERIOD. IF YOU ARE NOT ALREADY A CUSTOMER WE WANT YOU TO BE. REMEMBER THE 10 GRAINS OF CORN FOR EACH DOLLARS WORTH OF STOCK ARE REALLY WORTH THE MONEY YOU SEND US. THE BEST SEED CORN IS REALLY CHEAP AT ANY PRICE. THIS YOU KNOW IS OF THE BEST IN THE WORLD. THINK OF CORN YIELDING 117.1 BUSHELS PER ACRE.

BLACKBERRIES

We excel in growing fine Blackberry Plants. Our assortment is perhaps the largest of any grown in the United States. Our plants are mostly root cuttings, and as fine as can be grown. You make no mistake in ordering your Blackberries of us, as both our price and stock are right. Our plants will make you big money.

SARFF'S New Giant Himalaya Berry

Our plants of this new fruit is direct from the original stock. We have it growing on our grounds and is proving hardy and a strong grower as described and claimed by the introducers. We are quoting the introducers, description and will be glad to furnish our customers plants for trial. Next year our own plants will fruit and we can then give our own opinion.

This is the greatest small fruit introduced into America for a generation. It is entirely a new kind of Berry-fruit—just as different from anything you have ever seen or tasted as Raspberries, Blackberries or Strawberries are different from one another, and is, therefore, in a distinct class by

itself. A proper comparison can not be made between Himalaya Berries and any others grown in this country, either in character, and hardness of plant, or in quality, and abundance of fruit.

The berries are black, but are not blackberries. They are borne in enormous clusters, and ripen from time to time all summer, and on in the fall till frost comes. The yields are so large as to be almost unbelievable. But when we say that an average harvest is ten tons of berries from a thousand plants, growing on one acre, it will give some idea. Each berry is an inch long, thick, meaty, melting, sweet, with almost no core, and unusually rich—there is no other fruit with which we can compare them either in appearance or in quality. Flavor and flesh are both perfectly adapted for making pies, jelly, jam, preserves, and for eating raw. They need very little sugar in cooking, and do not spoil for many days after they are ripe when left hanging on the vines.

The plants have characteristics of raspberries, of blackberries, and of grape-vines and trees. The sprouts do not come up from the ground as blackberries do, but all start from one root. The canes will make a growth of 20 to 30 feet in on season. Price 25c. each; \$2.00 per dozen; \$5.00 per 100; \$40.00 per 1000.

BLOWER BLACKBERRIES. A very large Blackberry of finest flavor and jet black color. Look as large as Dewberries. The canes grow upright, and are perfectly hardy. This variety is one of the most productive in cultivation, begins ripening in July, and continues until September. It always sells for highest market price. If you do not have this valuable variety we hope you will try it. This variety is very popular among New York growers. It is claimed that 27 Blower berries filled a quart box and the yield was fully 50% larger than any other variety. Price 15 cents each, \$1.00 per dozen, postpaid; \$3.00 per 100; \$25.00 per 1000.

MERSEREAU

This early, mammoth, ironclad Blackberry is by far the most valuable variety that has appeared since the advent of the Wilson, over 30 years ago. It originated in north-western New York, where the mercury falls from 15 to 25 degrees below zero, and where it has stood in open field culture for many years without the slightest protection, never being injured in the least. It has never had a leaf affected with orange rust, blight or other disease, or produced a double or "rose" blossom.

In quality, it is exceptionally sweet, rich, melting and luscious, being without core.

The canes are of exceedingly strong, upright habit, attaining upon fairly good soil a height of 3 feet, if permitted to grow unchecked, and are so stout as to always remain erect; foliage large, deep green, abundant and entirely free from rust or blight. The yield is simply enormous, producing double the quantity of fruit per acre of the Snyder, Kittatinny or Taylor's Prolific, and affording heavy pickings from the first until the crop is all matured. Its season is early to mid-season, ripening with the Snyder—in advance of Kittatinny, Lawton, Taylor's Prolific or Erie, but not so early as Early Harvest or the Wilson. Price, 50c. per dozen; \$2.50 per 100; \$20.00 per 1,000.

MONEY IN BLACKBERRY CULTURE

We began growing Blackberries twenty-five years ago, and have made more money from this crop than any other fruit. Very seldom a failure of crop; immense yields; easy and cheap culture; plantations will last almost indefinitely if well cared for; returns often \$300.00 and over per acre. It is a good investment if you get the right kind of plants and varieties. Common stock is a nuisance and an encumbrance to your land. Scarff's Blackberries do the work. Why not try them? Grown from bearing strains.

ERIE

ERIE. This is a hardy variety, a vigorous grower, and quite productive. Foliage clean and free from rust. Fruit large and of good quality. Price, 50c. per dozen; \$2.00 per 100; \$15.00 per 1,000.

ELDORADO

ELDORADO. This is one of the valuable varieties for market and home use. It is a strong, upright grower, moderately full of thorns. About equal in productiveness to Snyder. The fruit is jet black, never coloring red after picking, fully as large again as the average Snyder berry. The flavoring is excellent, differing from all others in this respect, imparting a rich aroma, melting and juicy with but little core. This is unquestionably one of the finest. Highly recommended by experiment stations and growers everywhere. It will sell for 50c. to \$1.00 per bu. in advance of Snyder. We quote words of commendation from the following high authority: "This berry was noted last year, and is of much promise; so much that a special colored plate has been made. It is an oblong, irregular berry of large size, fruiting in pendulous, slender, hairy spikes with few thorns. Color black, flesh deep crimson, with tender core; flavor sweet, rich quality, and very good."

H. E. VanDeman, U. S. Agr.,
Washington, D. C.

Price, 50c. per doz.; \$2.00 per 100; \$15.00 per 1,000.

The Rathburn

RATHBURN. The berries are large, larger than Kittatinny, of an intense jet black, very glossy and of permanent color, never turns red, without any hard core, small seeds extra fine quality, with a peculiarly rich aroma, and sufficiently firm to carry well to market. It is in habit of plant, however that this variety differs from others. The plant suckers very little; it makes a strong, upright stem, from which the branches start out long and drooping, and the ends of which root readily in the ground, like Blackcap Raspberries, if covered lightly with soil. It forms a compact bush of four to five feet high, with canes much less thorny than other varieties, and yield abundantly. It ripens early—about with Wilson. All who want a large blackberry of the highest quality should certainly try this. Price, 10c. each; 50c. per dozen; \$3.00 per 100; \$20.00 per 1,000.

WARD BLACKBERRY. We quote description by a very prominent horticulturist who accompanied a committee from the New Jersey State Horticultural Society on a trip to the home of the Ward to look into the claims being made for it. "It was the most astonishing sight I have ever seen. Hedge rows were six feet apart, canes standing 4 to 4½ feet high, and some 2½ feet wide across, and the tops were such a solid mass of green, red and black berries as to almost exclude the foliage from sight. The ripe ones were big glossy black fellows, fully one-half larger than Snyder, rich sweet, tender and melting, with no hard core at the center. One-third of an acre yielded 60 bushels. This made \$544 per acre, which must have meant \$350 per acre profit. The canes are very hardy, never one having been known to winter-kill. A perfect blackberry is Ward. Price, 10c. each; 50c. per dozen, postpaid; \$3.00 per 100; \$20.00 per 1,000.

Ward.

Premo Dewberry

Much like Lucretia, but very distinct and exceedingly early, being seven to ten days ahead and all cleaned off when Lucretia is beginning. Quality and size uniform. Was found in a Lucretia patch. Price, 10c. each; 50c. per dozen; \$2.00 per 100; \$15.00 per 1000.

LUCRETIA DEWBERRY. The berries are far larger and incomparably better than any blackberry, and of unequalled excellence; soft, sweet and luscious throughout; of brightest, glossy black color. Price, 25c. per dozen; 150 per 100; \$10.00 per 1,000.

AUSTIN DEWBERRY. Earlier than Lucretia, same size. Price, 25c. per dozen; \$1.50 per 100; \$10.00 per 1,000.

\$350.00

FOR 10 EARS OF CORN—We paid it last year at the National Corn Show for the best 10 Ears of Corn in the world. We planted it and are giving it to our customers at the rate of 10 grains for each \$1.00 worth of stock bought. Send your order at once and claim your share of it. We bought it for our customers.

Ancient Britton

ANCIENT BRITTON.

One of the best hardy varieties. Very vigorous, healthy and hardy, producing large fruit stems, loaded with good-sized berries of fine quality that carry well and bring highest price in market. For general planting for home or market in all sections subject to severe winters, the Ancient Britton is recommended as a first-class variety. Price, 50c. per dozen; \$3.00 per 100.

AGAWAM. Medium size; jet black; is valuable especially for home use. Price, 50c. per dozen, \$2.00 per 100; \$15.00 per 1,000.

WAUCHUSETTS. (Thornless.) Remarkable from the fact it is almost entirely without thorns. Strong grower; fruit fair size; sweet and moderately productive. Price 50c. per dozen; \$2.00 per 100.

EARLY KING. An extra early and exceedingly hardy variety of great merit. Canes of strong growth, as hardy as Snyder, and very prolific. It is larger than Early Harvest, and its delicious sweetness renders it of special value for the home garden. Highly recommended by the experiment stations. Growers coin money on this variety on account of its hardiness, large size and earliness. Be sure to add it to your collection. Price, 50 cents per dozen; \$2.50 per 100; \$20.00 per 1,000.

TAYLOR. Berry medium size; jet black; ripens late; of much value, as it comes in after main crop of Snyder and other kinds are gone. Bush strong grower. Price, 25 cents per dozen; \$1.50 per 100; \$12.00 per 1,000.

WILSON EARLY. Good market variety; berry very large, sweet, good. It is a prolific bearer. Early. Price, 25 cents per dozen; \$1.50 per 100; \$12.00 per 1,000.

SNYDER. Every one knows Snyder to be an old favorite and valuable for main crop. Price, 25 cents per dozen; \$1.50 per 100; \$12.00 per 1,000.

OHMER. (Purchased from the disseminator of the Gregg Raspberry.) Hardy, healthy, very large; ripening after raspberries are gone, and lasting till late in August, when prices are up. Excellent quality; firm; no core. Five points will recommend this berry; Hardy, late, large, productive, and of the finest flavor; also brings 50c. to \$1.00 more a crate than Snyder or Taylor. As large as the largest; as hardy as any good berry; very productive; strong grower; finest quality, and late. Price, 50c. per dozen; \$2.00 per 100; \$15 per 1,000.

SCARFF'S FRUITING STRAIN FRENCH LAWTON. A selected fruiting strain from the old Lawton, once so popular among fruit growers. We have improved this variety until its fruiting capacity is simply marvelous. The berry is long, juicy little core, large size and glossy black color. Canes very strong, upright forming tree shaped bushes, bears so full of fruit that it should be heavily mulched or well cultivated to furnish plenty of moisture to mature the great yield of fruit it is capable of producing. Price, 50 cents per dozen; \$2.00 per 100; \$20.00 per 1,000.

Kenoyer

KENOYER. This variety is a cross between Kittatinny and Early Harvest, and was originated in Kansas. It is about the same season as Early King. Fruit large and luscious. The canes are strong growers resembling Kittatinny in wood and leaf. This variety will produce well in almost any soil especially on thin clay land where other varieties would not produce at all. It is well worthy of a trial, as we consider it one of the best early berries. Price, 10 cents each; \$1.00 per dozen; \$3.00 per 100.

ICEBERG, THE WHITE BLACKBERRY.

Strange as it may seem this is a real creamy white blackberry. Mixed with the jet black ones for dessert it makes a most wonderful dish. The fruit is about the size as Snyder with few seeds and quite sweet when fully ripe. The bushes are good strong growers and very productive. This is not a worthless novelty, but a fruit of real value, and should be in every garden and commercial collection as well. Price, 10 cents each; \$1.00 per dozen; \$4.00 per 100.

Scarff's Fruiting Strain Early Harvest

150 Bushel "Scarff's Fruiting Strain Early Harvest from one acre sold as high as \$4.00 per bushel. The earliest to ripen and the most productive of the early sorts. There are a number of different strains of Early Harvest Blackberries, all alike in appearance of wood and growth, but vastly different in productiveness. We noticed this peculiarity soon after its introduction, and have, by careful system of selection, selected a strain that is simply marvelous for great yields of luscious fruit. We have not only increased the productiveness, but size as well, and now have an early variety that cannot be excelled; as it ripens so early that it always sells at enormous prices. Price, Scarff's Fruiting Strain Early Harvest, 50 cents per dozen; \$2.00 per 100; \$15.00 per 1,000.

A Book for You

We are going to present each of our customers with a little book on **Transplanting and Afterculture of Trees, Shrubbery, Etc** Valuable to everyone who plants a tree, vine or plant; will be mailed on receipt of your order.

SCARFF'S CURRANTS

Have no Equal for Profit and Productiveness

No garden is complete without them. Easy to grow and sure to bear. Our list comprises only the very best in cultivation. Plant 3x6 ft. Use Paris Green for worms.

WILDER. A remarkable variety, for which we predict great popularity; both for table and market. One of the strongest growers and most productive. Bunch and berries very large, bright, attractive red color, even when dead ripe; hangs on bushes in fine condition for handling as late as any known variety. Compared with the celebrated Fays, is equal in size, with longer bunch, better in quality, with much less acidity; ripens at same time, continues on bush much longer; fully as prolific, in some trials largely outyielding it. Price, 15c. each; \$1.00 per dozen; \$5.00 per 100; \$40.00 per 1,000.

POMONA. This valuable variety originated near Indianapolis about ten years ago and is grown almost exclusively by growers in that section for commercial purposes. The berry is medium to large, bright red and excellent quality. It hangs on the bush a long time after ripe, and is one of the best shipping varieties. It is record of making a net profit of \$461.00 per acre for considered the easiest of all varieties to pick; and has a three consecutive years on an acreage of 6¼ acres. This perhaps is best record of any currant grown. Price, good strong plants, 15c. each; \$1.00 per dozen; \$5.00 per 100.

A Splendid Investment.

"ONE ACRE COLLECTION OF CURRANTS" WILL RETURN AN INCOME \$300.00 OR MORE OVER NET ANNUALLY.

Any one can succeed with this Acre Collection, and it will bear annually for twenty-five years, if properly cared for. Sure to grow and sure to make you money. The best varieties for market paying you dividends that will surprise you. This one Acre Collection should pay net \$300.00 or more per year if properly cared for. Sure to grow and sure to make you money. The best possible varieties for market. Sure croppers. Big profits.

RED CROSS. Jacob Moore, the originator, says: "Red Cross clusters are long and have well-necked berries, double the size of Victoria and far superior in quality to Cherry or Victoria. Nothing will compare in quality with Red Cross but White Dutch, which is so small. Red Cross was first fruited in 1880. I have seen the fruit growing in such masses as to hide the upper branches from view. It is later than Cherry, the plant makes twice the growth of Cherry and yields two or three times as much fruit. I recommend it with confidence. I consider Red Cross one of the best of the new currant." Price, 10 cents each; 1.00 per dozen; \$5.00 per 100; \$40.00 per 1,000.

Currants and Gooseberry plants sent postpaid at price per single plant. If wanted by mail in large lots add 20 cents per dozen; 50 cents per 100 additional to pay postage.

LONDON MARKET. The home of this valuable currant is Michigan, where hundreds of currants are grown for the Chicago markets. No other variety is so popular in that noted fruit section. The fruit is of good size, being larger than Victoria, Versailles and North Star. It is enormously productive. The bush is healthy and holds its leaves until snow flies. Valuable for the home garden or commercial purposes. Price, 10c.; \$1.00 per dozen; \$5.00 per 100; \$40.00 per 1,000.

PERFECTION A New Variety from New York

It has been awarded many valuable prizes and medals. Certainly approved by the very highest authorities and should be tested everywhere as there is big money in growing large currants.

Perfection awarded the Barry Medal. The fifty dollar gold medal of the Western New York Horticultural Society, July, 1901, after three years' trial. The first fruit to receive this grand prize. Also received highest award given any new fruit at the Pan-American Exposition.

THE COLOR is a beautiful bright red. Size as large or larger than the Fay, the cluster averaging longer. The size of berry is well maintained to the end of the bunch. The Perfection has a long stem from point of attachment to the bush to the first berry, making it easy to pick without crushing any of the berries.

PRODUCTIVENESS. The Perfection is a great bearer, resembling its parent the White Gape in this respect, superior to the Fay or any large sort with which we are acquainted.

THE SEASON OF RIPENING is about the same as that of the Cherry of Fay.

QUALITY. Rich, mild, sub-acid plenty of pulp with few seeds. Less acid and of better quality than any other large currant in cultivation. The White Grape has always been considered one of the best varieties for table use, and the effect of this strain is plainly seen in the very fine quality of Perfection.

VIGOR AND HEALTHFULNESS. In habit of growth it is intermediate between its parent Fay and White Grape, with remarkably large healthy foliage. Price, 25 cents each; \$2.00 per dozen; \$12.00 per 100.

NORTH STAR. Has proved to be hardy wherever tried without a single exception. Single berries of that short-bunched Cherry Currant can be grown a larger size than the North Star, but the average bunches of the latter are much heavier, while in quality the fruit is less acid and more agreeable to eat out of the hand than the Cherry or any other variety. In quality it is nearer the flavor of the Red Dutch than any other variety. Price, 10 cents each; 75c. per dozen; \$4.00 per 100.

VICTORIA. Large; bunches long; berries bright red color of excellent quality; bush good grower; extremely hardy. Perhaps this is the best older varieties of currants. Price, 10 cents each; 75 cents per dozen; \$4.00 per 100.

WHITE GRAPE. The best white currant. Fruit large and sweet; bush good grower, and produces large crops. Price, 10 cents each; \$1.00 per dozen; \$4.00 per 100.

BLACK NAPLES. The best white currant for all purposes; will stand most any climate; valued by some for jellies; it is very productive and hardy. Price, 10 cents each; \$1.00 per dozen.

FAY'S PROLIFIC. Perhaps no other currant has received so much praise as has Fay. It is very large, and always sells well and at high prices.

We consider it does better on heavy clay soil, well manured and thoroughly cultivated, than on lighter soils. Price, 10 cents each; \$1.00 per dozen, \$5.00 per 100. Versailles, Cherry and Red Dutch, same price as Fays.

**PERFECTION
RED CURRANTS**

Scartff's Gooseberries.

We are just now beginning to realize the immense profits in Gooseberry culture. It is really amazing to learn of the great yields from a plantation that has been properly handled. A half bushel per bush is not an uncommon yield. The Rural New Yorker has published some remarkable records from plantations in New York and Indiana.

There are only four really profitable varieties to grow. So there can be no mistake on this score. We advise you to investigate this line of fruit growing and get started at once so you can reap the big profits in the early stage of the game.

Price of Gooseberries, 15c. each; \$1.50 per dozen; \$10.00 per 100.

JOSELYN (RED JACKET)—Large Red variety. Good quality.

DOWNING—Large Green, very prolific and valuable for market.

PEARL—Similar to Downing.

HOUGHTON—Medium size, red thin skin, very prolific. Valuable for canning and preserves. Very valuable.

PEARL

SCARFF'S CHAMPION GRAPE COLLECTION

A GREAT HIT—YOU CANNOT INVEST A DOLLAR BETTER

One Strong Vine of Each Postpaid for \$1.00

SOLD MORE COLLECTIONS THAN EVER LAST YEAR.

The collection consists of eight of the very finest grapes grown. Just the thing for the home garden or for covering an arbor. The eight varieties are as follows, all strong one year vines.

BRIGHTON (red), **WYOMING** (red), **NIAGARA** (white), **MO. DIAMOND** (white), **CONCORD** (blue), **CHAMPION** (blue), **MOORE'S EARLY** (blue), **WORDEN** (blue).

Our price is so low that every one buys them. It is the most liberal fruit offer we ever made. Send order at once. Price, one good strong one-year vine of each, postpaid, only \$1.00. If extra heavy 2-year-old vines are wanted by express we can send the collection for \$1.25; express not prepaid, or by mail postpaid for \$1.50 for the strong 2-year vines. 10 grains of Premium Corn free with each collection by mail. Think of it. The corn alone is worth \$1.00. One plot made a yield of 117.1 bushels per acre.

GRAPES

CHAMPION (blue)—One of the earliest to ripen, practically free from rot or other disease, strong grower, compact bunches, quality fair size medium. It succeeds anywhere, and is good for covering arbor. Price, 15 cents each; \$1.50 per dozen.

WYOMING (red) A popular market sort. Berry small; quality good; very productive and hardy, resembling Delaware somewhat; valuable for home use or market. Price, 15c. each, \$1.50 per dozen.

WORDEN (blue) A valuable blue grape ripening from three days to a week before Concord. Berry large of good quality; thin skin; very productive; vine a strong grower. The most popular black grape grown to-day. It comes in early enough to avoid the rush of Concords, thus brings 1 to 3 cents per pound more. Price 15c. each; \$1.50 per dozen.

MOORE'S EARLY (blue) A large blue grape, ripening a week earlier than Concord; good grower; berries large, good quality, and makes a moderate yield, very valuable as an early grape. Price 15c. each \$1.50 per dozen.

NIAGARA (white) The most popular white grape in existence. Fruit large and very productive; a good grower; ripening same season as Concord; equally good; valuable in every way. Price, 15c. each; \$1.50 per dozen.

BRIGHTON (red) One of the best red grapes in cultivation. Bunch large and compact; a strong grower and very productive; quality good. Price, 15c. each; \$1.50 per dozen.

CONCORD (blue) An old variety does well wherever planted; good size; productive. Price, 10 cents each; \$1.00 per dozen.

MOORE'S DIAMOND (white) The color is a delicate greenish white, with a rich yellow tinge when ripe. Very few seeds, juicy, and almost entirely free from pulp, which makes it almost transparent. Berry size of Concord and two weeks earlier. Price, 15c. each; \$1.50 per dozen.

100,000 GRAPE VINES

We have a fine lot of 1 to 2 year vines for vineyard planting and if you will submit a list of your wants we will gladly quote you a special price per 100 and per 1,000. We can save you about 10% to 25% on your vines, and give you some fine stock.

Our Novelty Fruit Collection

Different from ordinary fruits, and should be planted by everyone loving rare specimens. They are but little value for commercial purposes. Plant in a small way only as novelties.

Beautiful Strawberry-Raspberry

Strawberry-Raspberry

Valuable for the extreme north, as the fruit is born on the young growth, and is of course hardy in any climate. This is an entirely new fruit, both in habit of growth and form of fruit.

Bushes grow 1 to 3 feet high and are covered with Raspberries in the shape of Strawberry-Raspberries.

They are upright in manner or setting. Perfectly hardy, bound to become a valuable addition in the fruit line. It is very productive and a distinct novelty in small fruits. 15c. each; \$1.00 per doz.; \$6.00 per 100.

ROCKY MOUNTAIN CHERRY. IMPROVED DWARF. This is a shrub, which originally grew wild in the mountains. The fruit has been greatly improved by cultivation and is claimed to be, when fully ripe the best fruit of its season. The fruit is jet black when ripe, and in size averages somewhat larger than the English Morello. Its flavor is similar to the sweet cherries. Price 20c. each; \$2.00 per dozen.

Dwarf Rocky Mountain Cherry.

JAPANESE WINEBERRY. Ornamental both in fruit and plant. Canes covered with purplish red hairs. Fruits in large clusters and each berry at first tightly enveloped by the large calyx, forming a sort of burr, which is covered with purplish red hairs. These gradually open and turn black, exposing beautiful wine-colored fruit of medium size, brick subacid, retaining flavor when cooked; highly esteemed for canning preserves, jellies, etc. Price, 15c. each; \$1.00 per dozen, postpaid.

BUFFALO BERRY. Fruit resembles small currants, but is of richer taste and literally covers the twigs and branches. If not gathered will remain on plants through the winter. Esteemed for pies, tarts, preserves, jellies, etc. A constant and prolific bearer, and will thrive anywhere.

Price, 25 c. each; \$2.00 per dozen.

HUCKLEBERRY. Highly prized for its rich luscious fruit for pies and dessert, will bear fruit at least when two years old and when once planted will last a lifetime—hardy and prolific. Price, 10 cents each; \$1.00 per dozen, postpaid; \$6.00 per 100, by express.

IMPROVED DWARF JUNE BERRY. A good substitute for the large or swamp huckleberry, or whortleberry, which it resembles in appearance and quality. The fruit is borne in clusters, and is reddish purple in color, changing to a bluish black. In flavor it is mild rich subacid; excellent as a dessert or fruit canned. The bushes are extremely hardy, enduring the cold of the far North and heat of summer without injury. When this fruit becomes better known to the public it will be very popular. It is much larger and better flavored than the mild Juneberries. 10c. each; \$1.00 per dozen, postpaid; \$5.00 per 100 by express.

OUR NOVELTY COLLECTION

We will send postpaid one plant each of these new varieties:—Japanese Wineberry, Rocky Mountain Cherry, Buffalo Berry and Strawberry—Raspberry for only 75c.

CRIMSON, WHITE, YELLOW AND BABY RAMBLERS

THE BEST ROSES GROWN

OUR SPECIAL OFFER—We will send by express one large, strong, blooming size plant of Crimson, Yellow, White, and Baby Rambler for only \$1.00. If by mail add 20c for postage.

CRIMSON RAMBLER. The plant is of very vigorous growth, making shoots of from eight to ten feet during the season, rendering it a charming pillar Rose. It is also magnificent in bush form, and for covering buildings, trellises, etc., it cannot be excelled. Two-year field grown plants 30c. each; 3 for 75c.

WHITE RAMBLER. Same as Crimson Rambler except in color. Price field-grown plants, 30c. each; 3 for 75c. Mailing size 30c. each.

YELLOW RAMBLER. Same as Crimson Rambler except in color. Price 30c. each; 3 for 75c. Mailing size 30c. each.

THE BABY RAMBLER. Successive blooms every day from June until frost out of doors. In pots in the house it will bloom every day in the year. 30c. each; \$3.00 per dozen.

Crimson Rambler

CINNAMON VINE. A fine hardy climber. The vine is a very rapid grower, producing flowers of a cinnamon fragrance; therefore called "Cinnamon Vine." Price, 5 cents each; 6 for 25 cents; 15 for 50 cents; 35 for \$1.00.

TRUMPET FLOWER. An old time favorite, grown in nearly every old garden. Flowers perfect trumpet shaped, bright scarlet. A rapid grower; one of the finest vines for covering old stumps, fences, trellises, etc.,. Blooms almost continuously through the summer. 15 cents each; \$1.50 per dozen, postpaid.

NEW AMERICAN. An ever-bearing variety ripening from middle of June until the middle of September. It forms a handsome shade tree, is much harder than the

TRUMPET FLOWER

AMERICAN MULBERRY

Downing and is a heavy annual bearer of large, sweet delicious and refreshing berries that do not have the mawkish sweetness of most varieties. Delightful for making pies, dumplings and puddings. 5 to 6 feet, 40 cents; 3 for \$1.00.

RUSSIAN AND DOWNING EVERBEARING MULBERRY same price as New American.

ELDER BERRY

These berries are highly esteemed in many parts of the Old World for cooking and in the making of cordials.

2 feet high, 15 cents; 12 for \$1.50. Small plants by mail at same price.

ALTHEA (Rose of Sharon). Strong, erect growing shrubs of the easiest culture which bears large and showy flowers in early fall. Very desirable as an ornamental hedge on account of flowering when few other shrubs are in bloom. Each, 25c.

WHITE AND PURPLE LILAC. Each, 25c.

JAPONICA. Flowers red, showy, borne in long plumes, 18 to 20 inches. Very handsome. Blooms very early in spring. Each, 35c.

SYRINGA (Mock Orange). Flowers large, snow white, very popular shrub. Blooms in June. Each, 25 cents.

Barberry, each, 25c.; Deutzia, each, 25c.; Forsythia (Golden Bell), each, 25c.; Weigelia, each, 25c.; Snowball Viburnum (Japanese), each, 25c.; Common Snowball, each, 25c.; White Lilac, 25c.; each.

SWEET SCENTED HONEY SUCKLE. For real home vines, climbing over your windows and doorways, there is nothing prettier than fine, sweet scented honey-suckles; the foliage is pretty, neat and clean, the flowers almost continuous. Price, 25 cents each; \$2.00 per dozen.

YUCCA (ADAMS NEEDLES)

A hardy evergreen plant with long narrow leaves that are bright green the whole year. The flowers are creamy white, bell-shaped, produce on long spikes 3 to 4 feet high. Fine, stately lawn plant. Good strong plants. 15 cents each; 10 for \$1.00, postpaid. Extra large clumps, 4 years old, by freight or express, 25c. each.

SARFF'S Fruit Trees SELECT APPLES

The varieties named are beyond doubt the most profitable for market and best bearers for home use. You run no risk whatever in making your selection from us. Our trees will please you.

BISMARCK Apple. Tree of short, stocky growth, thick healthy foliage; makes beautiful specimens grown in pots for decorative purposes. Fruit large, handsome, yellow, sometimes shaded red cheek; flesh tender; sub-acid. Entirely new in its remarkable quality of producing crops on young trees, seldom failing to bear when two years old. Price of trees, 35c. each; \$3.50 per dozen.

Dwarf Apples.

Perhaps no other fruit is attracting so much attention at the present time as Dwarf Apples, especially for garden and yard planting. They can be planted 6 feet apart and do well. They begin to fruit the second or third year, and bear abundant crops. The fruit is just as large, same flavor, etc. as that born on the standard trees. The great advantage is the early bearing of fruit. The trees never get over 6 or 8 feet high. Very profitable, bear 4 to 6 bushels per tree.

We can supply the following choice Dwarf kinds: Bismark, King, Baldwin, Hubbard's Nonesuch, Northern Spy, Wagoner, Wealthy, McIntosh. Try a dozen or more trees, and gather fruit from them in a very few years. Price, 3 ft. trees 35 cents each, \$4.00 per dozen, \$30.00 per 100.

BISMARCK

DWARF APPLE

**BEARS ABUNDANTLY AT 2 AND 3 YEARS OLD
PLANT AT LEAST A DOZEN TREES**

See other varieties of Dwarf Apples

Winter Banana Apple

STANDARD TREES

This valuable new apple is a surprise to all who eat it, owing to the decided Banana flavor and taste it imparts, besides it comes into bearing in two years from planting, and continues to

produce full crops each succeeding year. The fruit is large, perfect in form, golden-yellow, beautifully shaded and marbled with bright crimson. Flesh, lemon-yellow, creamy texture like a well ripened fall pippin, rich, of highest quality and a good keeper—from November until May. Tree a remarkable strong grower, of ironclad hardiness, with a large foliage that never blights or mildews and produces enormous crops every year. A truly wonderful fruit. First-class, each, 35c.; doz., \$4.00; per hundred, \$30.00. One year, by mail, each, 35c. doz., \$4.00.

ENGRAVED
FROM A
PHOTOGRAPH

New Apple Collection

For only \$1.00 we will send postpaid one mailing size tree of Bismark, Winter Maiden Blush and Winter Banana, 3 trees of each for \$2.50. One large tree of each by express for only \$1.00. Three large trees of each for \$2.50 by express.

SOLD AT TWELVE DOLLARS PER BOX

The entire crop of Hood River Banana Apples sold at \$12 per box of less than one bushel. The highest price ever paid for apples. Why not have a few good trees? Ours are genuine. You can have good apples if you care for them the same as you do other crops.

WINTER MAIDEN BLUSH or (Greenville). This variety is identical with Fall Maiden Blush, except in time of ripening and keeping qualities. It being a winter apple and a splendid keeper, the value of such a variety cannot be overestimated.

This fine apple was produced from seed of the Fall Maiden Blush by Jason Downing, in Darke County Ohio, in the spring of 1874. It made a vigorous growth, and at the age of seven years it bore excellent fruit, from which time it has produced fruit annually. In 1888, at the age of fourteen years from seed, it yielded 15 bushels of picked apples. We have been noting the behavior of this apple growing it both in nursery and orchard, and from the weight of testimony in its favor, we have decided to grow it in quantities to supply the increased demand.

Price, 35c. each;
\$3.50 per dozen.

Mailing size trees same price, postpaid.

WINTER MAIDEN BLUSH

SCARFF'S APPLE ORCHARD

25 choice trees, 4 to 5 ft. high, for only \$5.00. Summer, Fall and Winter varieties. 2 yellow Transparent, 1 Red Astrachan, 1 sweet Bough, 1 Ea. Strawberry, 2 Maiden Blush, 2 Fall Pippin, 2 Rambo, 1 Bismark, 2 Winter Banana, 2 Winter Maiden Blush, 2 Baldwin, 1 Ben Davis, 2 Wealthy, 2 Rome Beauty, 2 Grimes Golden.

GENERAL LIST OF APPLES

Price of extra good trees, 30c. each; \$3.50 per dozen; \$25.00 per 100. Good trees, 3 to 4ft. 25c. each; \$2.50 per dozen; \$20.00 per 100. Mailing size, 25c. each; \$2.50 per dozen, postpaid.

EARLY HARVEST. Medium early; pale yellow; excellent fine flavor.

RED ASTRACHAN. Large, of crimson hue; beautiful; somewhat acid; withstands winters well; early.

SWEET BOUGH. Large, yellow, sweet, of excellent quality, and profitable as a market variety; early.

EARLY STRAWBERRY. Medium in size; roundish; excellent quality; productive. Ripens in July.

YELLOW TRANSPARENT. Of a pale lemon cast; smooth skin; very good; the earliest apple to ripen and fine market sort. Best of the early varieties. Bears very early; often fruits in the nursery row at 3 years old. Be sure to include it in your collection.

DUCHESS OF OLDENBURG. Yellow striped with red; very good; a profitable variety on account of its productiveness. Autumn.

FALL PIPPIN. Very large; rich flesh; creamy white; not as productive as some varieties, but desirable for its extra quality. Early Autumn.

FAMEUSE. Size medium; roundish; striped with deep red on a white ground; juicy; vigorous grower. October.

MAIDEN BLUSH. An extra mid-autumn variety; whitish yellow, with carmine cheek. A most popular variety.

BALDWIN. Dark red; medium to large; slightly acid. Very popular on account of its flavor and shipping qualities. Early winter.

BEN DAVIS. Very large; red striped; not extra quality, but a good yielder, and sells well in market. Early winter.

FALLWATER. Large: greenish yellow; fair quality. Keeps well, and very productive. Mid-Winter. Wealthy, Stark, Grimes Golden, Mo. Pippin, Wolf River, Greenville, Rome, Beauty, Arkansas Black, Gano, Jonathan, Tallman Sweet, Wagner, White Pippin.

Winesap, York Imperial.

CRAB APPLES. Varieties.—Hyslop, Whitney, Transcendent. Price, 35c. each; \$3.50 per dozen.

YELLOW TRANSPARENT.

Other varieties.—Mann, Winter Rambo, Wealthy, Stark, Grimes Golden, Mo. Pippin, Wolf River, Greenville, Rome, Beauty, Arkansas Black, Gano, Jonathan, Tallman Sweet, Wagner, White Pippin.

CHERRIES

MONTMORENCY

A Good Commercial Cherry Orchard Pays Big Profits.

Price, fine trees, 5 to 6 ft., well-headed and good roots, 30c. each; \$3.00 per dozen; \$20.00 per 100. Mailing size, 30c. each, \$3.00 per dozen post paid.

GOV. WOOD. One of the best sweet cherries. Large, light red, juicy and delicious. Tree healthy and a good bearer. Early June.

YELLOW SPANISH. Very large yellow and rich; a popular variety. Is of Spanish origin. Sweet.

DYEHOUSE. In wood and fruit, it shows a percentage of both Morello and Duke. Bears early and is a sure fruiter. A week earlier than Richmond. Valuable for preserves.

EARLY RICHMOND. Dark red; medium size; very popular. A standard and time-tried variety. Early May market.

MONTMORENCY. Larger than Early Richmond, about ten days later, and is probably the best and most paying variety in cultivation market.

Other varieties of Cherries, Louise Phillipe, Otheim, Rein Hortense, May Duke and English Morrello.

No better time than now to plant cherry trees. The price was never lower and the demand never better for good fruit.

STANDARD and DWARF PEARS.

Prices, except where noted, fine trees, 40c. each; \$4.00 per dozen; \$30.00 per 100. Mailing size, 30c. each; \$3.00 per dozen, postpaid.

SECKEL—Small, skin rich, yellowish brown, when fully ripe, with deep brownish red cheek; flesh very fine grained, sweet, exceedingly juicy, melting in the mouth.

DUCHESSE—Very large, buttery, rich, juicy, excellent. It succeeds to perfection and is the most popular market variety as a dwarf.

KOONCE. This pear ripens about two weeks earlier than Early Harvest. It is not quite as large as Early Harvest, but of much better quality, and does not rot at core, as Harvests often do. The fruit is straw color, with red cheek, dotted with brown dots. Tree a vigorous grower; healthy foliage; is very hardy in bud and bloom.

WILDER EARLY. The claims of this pear are early ripening; productiveness, high quality and healthy growth; also long keeping qualities.

BARTLETT. Size large, with blush next the sun; quite juicy; excellent flavor; fruits when quite young. One of the most popular. July and August.

CLAPP'S FAVORITE. Quite large; from green to yellow color; covered with russety specks; rich July and August.

VERMONT BEAUTY. It is very vigorous, the leaves free from blight. It is an annual and abundant bearer. In quality the fruit approaches nearer that most delicious pear, the Seckel, than any other Pear on the market. It is full-medium size, yellow, covered on the sunny side with bright crimson red; flesh melting, rich juicy, aromatic. Ripening with and after Seckel, though much larger in size and more attractive in appearance, it cannot fail to prove a general favorite and very valuable.

TYSON. Size medium; cheek reddish brown; melting sweet excellent. August.

IDAHO. A chance seedling and a noteworthy variety. Will withstand a temperature of 30 degrees below zero. Its size and appearance somewhat resembles the Chinese Sand Pear, but it is far superior to it for eating. It is among the best pear in cultivation. Large, handsome, core small. October.

KIEFFER'S HYBRID. An offspring of the Sand Pear and Bartlett; is very ornamental variety, owing to its beautiful foliage. Bears very young, often fruiting in the nursery row. Fruit never rots at core. September and October.

ROSSNEY. Ripens two weeks after Bartlett; it is an excellent keeper and shipper, with tree much stronger than Kieffer. In general appearance it somewhat resembles Bartlett, but is more round. It is very seldom you can find a single variety combining so many rare qualities as this does, and we have great pleasure in offering it as the Best Pear on the market at the present time.

Scarff's Pear Orchard.

15 choice trees for \$4.50. A rare Bargain.

1 ROSSNEY (NEW), 1 VERMONT BEAUTY (NEW), 2 KOONCE, 2 WILDER, 1 BARTLETT, 2 CLAPP'S FAVORITE, 2 SECKEL, 4 KIEFFER.

QUINCES

Orange Champion and Meechs Pro. Price 3-4 ft trees, 35c. each; \$4.00 per dozen; mail size same price.

SCARFF'S FINE PEACH TREES

MAYFLOWER PEACH. Practically frostproof—It blooms very late and blossoms are very large, thus quite safe from damage by ordinary frost. Safe and sure for planters everywhere. This new

peach originated in North Carolina, and is the earliest peach in existence; beside its color is perfectly red, which makes it one of the best and most profitable market sorts in existence. It is perfectly hardy, and abundant cropper, and should be in every home collection of fruit whether for the home garden or for commercial purposes. Our stock comes from the originator, and can be relied upon as being genuine and first-class in every respect.

Price good trees, 30 cents each; \$3.00 per dozen; mailing size, 25 cents each; \$2.50 per dozen.

STANDARD PEACHES

Price except where noted, good trees, 4 to 6 feet, 25c. each; \$2.50 per dozen; \$20.00 per 100. 2 to 3 ft. trees, 15c. each; \$1.50 doz., \$12.00 per 100. Mailing size 15c. each; \$1.50 dozen.

CROSBY. Valuable especially for the unusual hardness of its fruit buds. Medium; bright yellow, with crimson splashes and stripes; very attractive; flesh bright yellow; red at the pit; juicy rich. An abundant and regular bearer. Ripens before Crawford's Late.

CHAMPION. Originated in Illinois. Very large, specimens having measured ten inches in circumference, skin creamy white, with red cheek; very handsome; will fruit under trying circumstances. August.

SCARFF'S FINE PEACHES

ALEXANDER. Quite large; flesh very juicy and melting; excellent.

BEER'S SMOCK. Large fine quality; a good shipper; color yellow.

CRAWFORD'S EARLY. One of the best early yellow peaches. Fruit large; yellow, with a blush cheek; very beautiful; productive. Last of July.

ELBERTA. Quite as popular as Crawford's Early. The best peach grown.

OTHER GOOD VARIETIES.—Early Canada, Crawford's Late, Foster, Globe, Mountain Rose, Old Mixon Free, Shumacher, Steadley, Stump of the World, Salway, Smock Free, Carman.

PLUMS BIG MONEY IN PLUM GROWING

Plums and Poultry—Poultry destroys insects; insects "make hens lay."

Price, good trees, 35 cents each; \$3.50 per dozen; \$25.00 per 100. Mailing size, same price.

MOORE'S ARCTIC. Very hardy; a prolific bearer; dark purple; flavor fine.

NIAGARA. Large; reddish purple; green bloom; resembling to Bradshaw.

SHIPPER'S PRIDE. A large, blue plum; very hardy and productive; esteemed for market.

REINE CLAUDE. (Bavey's Green Gage.) Very large; greenish; fine flavor.

YELLOW EGG. A vigorous grower and abundant yielder of luscious fruit.

GERMAN PRUNE. A valuable plum of fair quality for dessert, but most esteemed for drying and preserving. Long-oval, purple with a thick blue bloom; flesh firm and pleasant, separating from the stone. Moderate to vigorous in growth. September.

BRADSHAW. Very large fruit; dark red; flesh inclined to yellowish green.

LOMBARD. Size medium; bright red; sweet, good A variety valuable for market. A great producer of fine blue plums. Most popular variety of blue plums grown.

JAPANESE PLUMS.

ABUNDANCE. A very early bearer, it often bears fruits in the nursery row. It bears such loads of fruit that it is often necessary to prop the limbs to keep them from breaking. Fruit large, beautiful and of an amber color. Flesh yellow, tender, sweet.

RED JUNE. A vigorous, hardy, upright, spreading tree, as productive as Abundance, with fruit as large as that standard variety; deep vermilion-red, with handsome bloom, halfeling; pit small. Reliability of tree, size and beauty of fruit, its early ripening and fine keeping qualities make it a prize winner.

BURBANK. It is the most promising of any variety of Japanese origin. Vigorous, strong branches. Fruit almost curculio proof. A good shipper. June.

APRICOTS

HARRIS HARDY. The fruit is fully as large as the best Apricot grown in California, and so much better quality as to make and hold a place in the market against the very best from California. Price, 35 cents each; \$3.00 per dozen.

NECTARINE. A very delicious smooth skinned fruit, which thrives wherever peaches will grow. Price, 35 cents each; \$3.00 per dozen.

CATALPA BUNGEI. (Umbrella Catalpa.) Grafted on stems 6 to 8 ft. high, it makes an umbrella-shaped top without pruning. Perfectly hardy; and flourishes in almost all soils and climates. Leaves large, glossy, heart-shaped deep green; lay like shingles on a roof; always making a symmetrical head. One of the most unique trees a valuable acquisition desirable for lawn, park and cemetery planting. 6 to 8 feet, each \$1.00; dozen, \$10.00.

NORWAY MAPLE

This beautiful Norway stands in the yard of one of our fruit farms and is about 14 years old. It is a fine specimen and has no equal for planting for permanent shade along the roadside, in door yards or for street or park planting. Price, 8 to 10 ft., \$1.00 each.

Hardy Ornamental Climbing Vines

AMPELOPSIS VEITCHII, 25c. each, 5 for \$1.00
CHINESE MATRIMONY VINE, 15c. \$1.50 per dozen.

CLEMATIS (assorted varieties) 50c. each, post-paid.

VOLGA POPLAR. This valuable new poplar was brought to this country from Russia by Russian Menonites who settled in northern Minnesota. In this cold country it is perfectly hardy and never shows signs of dying in the top so common to the Lombardy Poplar. Its growth somewhat resembles the Lombardy, but it is not so spreading as this variety. The foliage is a beautiful glossy green, and leaves retained as long as the hard Maple, long after severe frosts. It is a strong grower, makes a symmetrical growth suitable for lawn or driveway planting, very rapid grower. Our stock is very fine, and we are making a low price on same. Fine trees 8 to 10 ft., 50c. each; \$5.00 per dozen; \$35.00 per 100.

VOLGA POPLAR THE QUICK SHADE TREE

Tear Down the Old Fence—Plant a Live One of California Privet

A Nice California Privet Hedge

will add \$500 to the value of your property. Easy to grow and a thing of beauty from the day it is planted; will last forever. The nicest fence you can buy. Stays green until January. The cheapest fence you can build and then there is nothing better. Fine large plants. Our stock is fine.

CALIFORNIA PRIVET HEDGE. One of the most beautiful plants for hedge in existence. There is no other hedge plant that will equal the California Privet for the purpose, becoming more beautiful each year. A quick, strong growing shrub, yet easy to control by use of shears or knife to any desired shape. Fine for hedges between city lots, on large rural grounds, parks, cemeteries, in single clumps or with other shrubs, also as screens to outbuildings, fences, etc. Very hardy, to grow on all soils, even in partial shade; almost evergreen, its rich leathery-green foliage turns to purple in winter. Each, 10 cents. \$1.00 per dozen by mail, postpaid. By express, \$4.00 per 100; \$30.00 per 1,000.

SPIRAEA.

In making a house and lawn attractive, there is no better shrub than the Spiraea Van Houttei. It is a plant growing about five feet high, with delicate leaves and clusters of white flowers.

This shrub can be used in groups or in hedges, with very good effect. The illustration on this page represents a hedge of this desirable ornamental shrub, four years planted. The photo was taken in June, when the plant was in full bloom. The Spiraea Van Houttei one of the very best hardy plants for an ornament hedge, or for artistic groupings, and it will bear clipping into compact form, as well as any shrub. Price for large plants 25c. each; \$2.50 per dozen; \$15.00 per 100. Lighter stock for hedging, \$6.00 for 50; \$10.00 per 100.

Spiraea Van Houttei Hedge (Simply grand when in bloom)

Plant at least half dozen of these beautiful white flowering shrubs about the lawn, they will repay you a hundred fold.

SCARFF'S GENUINE CATALPA SPECIOSA.

Valuable for posts, railroad ties, telephone poles, fuel, etc. Makes rapid growth and is highly recommended by experiment stations and institute lecturers. We are growing the genuine Speciosa which is the only variety worth planting for above named purposes. It thrives everywhere and should be planted in all waste places, woodsides and hills too steep for cultivation.

Valuable Post Timber

\$1,500 per Acre

This is not an exaggerated statement. Plant 6 x 8 ft. apart, which will require 900 trees per acre. In 10 years they should cut 7 to 10 posts each or a total of 6,000 to 9,000 posts, which are easily worth in any market 20 to 25c. each. If used for telephone poles or railroad ties it would be even more valuable. Beware of any but the genuine Catalpa Speciosa.

Price, 1 to 2 ft., 25c dozen, postpaid; by express, 1.00 per 100; \$8.00 per 1,000. Larger size, 2 to 3 ft., \$1.50 per 100; \$12.00 per 1,000.

Osage Orange is not quite as rapid in growth as Catalpa and Locust, but it will outlast either when used for posts, as a post six inches in diameter will last a lifetime. Price per dozen 1 to 2 feet, postpaid, 25c.; by express, \$1.00 per 100; \$6.00 per 1,000.

BLACK LOCUST. The lower cut shows a group of Black Locust, two years old, growing from stump after first cutting had been made. The second growth is very rapid and the ground soon resets itself. Notice the vigorous, healthy wood, standing firm and erect. One of the most valuable post and railroad tie timbers. Makes rapid growth and very durable for posts, railroad ties, poles, etc.

\$1000.00 PER ACRE.

We do not think the above figure unreasonable. An acre planted 6 x 6 ft. will in 8 years or less begin to yield regular income from posts, and in 10 years small telephone poles may be cut, then railroad ties, etc. The Locust will grow on any rough land absolutely unfit for anything else; beside it encourages a growth of grass and the land can be used for pasture after the trees are large enough that the stock do not damage by breaking down. Plant an acre this spring of our quick-growing strains. Easy to grow and will grow any place.

Price 1 to 2 ft., 25c. per doz., postpaid; by express, \$1.00 per 100; \$6.00 per 1,000.

Maple, soft, 12 to 18 in.....\$2.00 per 100 \$15.00 per 1000
Mulberry Russian, 12 in.....1.50 per 100 10.00 per 1,000

BLACK LOCUST, 2 yrs. old.

NUT TREES

(one tree each kind post paid \$2.00)

CHESTNUT JAPAN. Very distinct from all other chestnuts, dwarf grower; productive, usually producing nuts when two or three years old. Nuts of immense size, surpassing all other kinds, of fair quality when outside skin is removed. 2 to 3 feet, 50c.

Hickorynut,	2 to 3 feet,	Postpaid 35 cents each;	\$2.50 per dozen, by express.
Black Walnut	3 to 4 feet,	Postpaid 35 cents each;	\$2.50 per dozen, by express.
Beechnut,	4 to 5 feet,	Postpaid 35 cents each;	\$2.50 per dozen, by express.
Hazlenut,	2 to 3 feet,	Postpaid 35 cents each;	\$2.50 per dozen, by express.
Butternut,	3 to 4 feet,	Postpaid 35 cents each;	\$2.50 per dozen, by express.

SCARFF'S GOOD SEED CORN

MONEY REFUNDED IF NOT SATISFACTORY ON ARRIVAL

Our Seed Corn is equal to any, we do not care where it comes from or how long its pedigree. We grow annually about 400 acres on our own seed farms and select what we sell with the same care as we select our own. Send us a trial order and increase your yield 10 to 25 bushels per acre. We have grown over 100 bushels per acre. No claims allowed if not made within 10 days after arrival.

OUR MODERN SEED BARN 68x138 FT. FULLY EQUIPPED WITH THE BEST CORN MACHINERY

\$350.00 Dollars for 10 Ears of Corn.

That is exactly what we paid for the Grand Sweepstakes, 10 ears at the National Corn Show at Columbus, 1911. We planted it. The best plot yielded at the rate of 117 1-10 bushels per acre. We grew over 100 bushels of choice seed from the 10 ears. Think of it. We intend giving each of our 1912 customers a start of this Corn, and will distribute it at the rate of 10 grains for each \$1.00 purchase from our catalog, 20 grains for \$2.00 purchase, etc. We have a free Corn booklet telling all about this Prize Corn, giving yields, culture, etc. Nicely illustrated from photographs. Absolutely free to Corn growers everywhere.

Gold Standard Leaming has made a yield of 100 bushels per acre for several years in succession on our seed farms.

GOLD STANDARD LEAMING

The Leaming is the oldest distinct variety of corn, having been originated in 1826.

Our Gold Standard strain is one that gives universal satisfaction over the entire corn belt. 100 bushels per acre is not an uncommon yield. The color is a deep, rich, golden yellow; ears very uniform and of medium to large size, well filled at butt and tip ends. Grains are deep, broad and tapering, well set on the cob. Length of ears 8 to 11 inches, 7½ to 8 inches in circumference, weighing 12 to 17 ounces each. Each ear has 16 to 24 rows of kernels with little space between rows. This is an all round feeding corn with the elements that put on fat, and the kind that fills your cribs each season.

"NO MATTER WHO YOU ARE OR WHERE YOU LIVE, IF YOU HANDLE LIVE STOCK AND RAISE ALL OR PART OF THE CORN YOU FEED, YOU CAN MATERIALLY INCREASE YOUR PROFIT BY GROWING GOLD STANDARD LEAMING." PRICE \$1.00 PER PECK; \$3.00 PER BUSHEL. IN THE EAR SAME PRICE.

Good Seed Corn will increase your yield 25 to 40 bushels per acre.

Improved Yellow DENT

We grow this large corn in large quantities here on our 1,100 acre seed farms and find it one of our leading kinds. Heavy yielder. Good deep grains, beautiful deep golden color, matures early and yields annually 75 to 105 bushels per acre. Price, \$1.00 per peck; \$3.00 per bushel. Can furnish either in ear or shelled.

RED COB ENSILAGE—A pure white corn cropping as high as 45 tons of fodder per acre. Sweet, tender and juicy. More nourishment than any other variety. Short joints, abundance of leaves and of tall growth. For the Silo only. Peck, 75c.; bushel, \$2.00. Shelled only.

EARLY MASTADON

EARLY MASTADON—By same originator as Drought Proof. The ears show two shades of color, white cap and yellow grain, although not so pronounced as the White Cap. It is valuable for main crop when a large ear and early maturity are essential. It is also very valuable for feeding stock, as the grain is not so hard as some other kinds; besides it shells a large percent of corn from a bushel of ears. It can be planted late and still be in time to mature a crop. It is a cross between White Cap and Early yellow Dent. We have an extra fine strain of seed that has been carefully selected for size of ears and early maturity for many years by one of our very best growers. Price, \$1.00 per peck; \$3.00 per bushel, shelled or in the ear.

known. This is due to the vigorous growth and healthy stalk; the roots penetrating deep into the soil beyond the dry strata. This valuable quality makes it stand well during storms and easy to cut either with binder or by hand. It is very early—90 to 100 days. No planter should fail to include Drought Proof in his collection. Price, \$1.00 per peck; \$3.00 per bushel, shelled or in the ear.

If not satisfactory we will return your money.

At prices quoted by the peck or bushel the purchaser must, in all cases, pay the transportation charges.

SCARFF'S CASH

The Best Feeding Corn

62 pounds of Shelled Corn per bushel, 70 pounds of ears—only 8 pounds of cobs.

It's all Corn

Early to mature and a yielder of finest ears. Matures any place in the United States.

CASH. A new deep grained yellow corn with the smallest cob of any variety known. The ear is large, well filled at butt and tip ends, with beautifully formed deep grains. This corn is beyond doubt the best feeding corn in existence. Matures in about 100 days. Shells easy as early as September. It certainly is the ideal corn. Every one will buy it for seed that sees it.

Our exhibit of Cash Corn at the Ohio State Fair at Columbus was of great interest to every one who saw it. We weighed carefully 70 lb. of ear Corn (one bushel), then shelled it, and by actual weight had 62 lbs. of shelled Corn and 12 lbs. cobs. We exhibited the shelled corn and the cobs. No other Yellow Corn will do this. It will yield with any variety on our farms. We cut and husk it ten days to two weeks earlier than Leaming, Reids' Yellow Dent, etc.

It is with a great deal of pride and satisfaction that we offer this valuable new Corn to our customers. We have grown it on our own farms for about ten years, and by careful selection we have it as near perfect as any Corn we have ever tried. In fact, every one who sees it at once recognizes in it a valuable variety. For stock feeders, yield, its early maturity, good sized ears all go to make up the ideal Corn. Your money back if the seed is not satisfactory. That's fair. **TRY IT. SAMPLE FREE.**

Price, \$1.00 per peck; \$3.00 per bushel, either shelled or in the ear. Sample ear, 25 cents, postpaid. Per quart postpaid, 50c.

JOHNSON COUNTY WHITE

DENT CORN

THE FAMOUS PRIZE WINNER.

Beside we believe it will outyield any known variety. In our test plot this year it made the high average of 117.1 bushels per acre. (See our corn booklet, mailed free to every corn grower.).

The greatest show Corn in the world. This variety has taken more prizes than all other varieties combined. This is the variety of Corn for which we paid \$350.00 for 10 ears at the National Corn Show, at Columbus, Ohio. The illustration shows the 10 ears and the \$1,200.00 Silver Trophy given as Premium. A single ear of this variety has won \$1,000.00 in prizes; and during the National Corn Shows at Chicago, Omaha and Columbus this variety has won approximately \$15,000.00 in prizes. It has been bred for a long term of years by the most careful corn breeders and has fixed a type of Corn that conforms so closely to score card that few others have much chance of being winners. It breeds true to type, so that show Corn is the rule rather than the exception. To those wishing to compete for prizes at the fairs or corn shows we would strongly advise planting this variety.

The ears are cylindrical in shape, slightly tapering at the end, well filled out at both butt and tip ends, straight rows with grains close together, Corn pure white and cob same color. The ears run from 10 to 11 inches in length and about 8 inches in circumference. The stalks make a strong vigorous growth, well braced with good system of brace roots, capable of withstanding severe wind storms as well as drought. The strain we are growing is thoroughly acclimated to our latitude, and is perfectly safe to plant in all Corn growing sections except the extreme north, where only very early sorts can be grown. The ears are very uniform and large size, with deep grains and will yield 100 to 140 bushels per acre. It is a variety very rich in protein, hence valuable for feeding purposes, also valuable for the silo, as it makes as much fodder as the regular ensilage Corn and so much larger proportion of ears, hence a much richer ensilage.

Do not fail to secure some of our stock seed, as there is no finer. Our original stock is from the prize winning strain of Indiana. Our seed stock was purchased from a grower who has captured three of the National Sweepstakes prizes for 10 best ears of any color in the world. There is no better strain than ours, beside our seed is acclimated to the northern corn-growing section. Large packet 15c.; 1 pound 35c.; 3 pounds \$1.00; 1 ear 50c. postpaid; peck, \$1.00; bushel, \$3.00. Shelled or in the ear.

Remember—The Johnson County White we are offering for sale at above prices is not the product of the 10 ears for which we paid \$350.00; but the seed stock is from the same grower, and was grown right here in Ohio. The product of the 10 Prize Winning ears can only be gotten as a premium, 10 grains for each \$1.00 purchase. 20 grains for \$2.00 purchase, etc. Get your share of it.

\$350.00 For 10 Ears Johnson County White

These are the 10 ears we purchased at the National Corn Show at Columbus. This special strain has taken so many prizes. Our test for productiveness this year will also put it at the head of the list as a high yielder. We planted the 10 prize \$350.00 ears in five different plots, with soil in each plot different. Our season was extremely dry and unfavorable as a Corn season; but we got results far above our expectations as follows:—

Plot No. 1. Rate per acre.....	117.1 Bu.
Plot No. 2. Rate per acre.....	116.5 Bu.
Plot No. 3. Rate per acre.....	110.8 Bu.
Plot No. 4. Rate per acre.....	91.1 Bu.
Plot No. 5. Rate per acre.....	51.8 Bu.

NOTE:—In Plot No. 5, over 50 per cent was destroyed by cut worms.

Pride of the North

PRIDE OF THE NORTH. The old, well-known standard extra early Yellow Dent. A strictly 90-day corn. Ears not large, but **kernels very deep with very small cob.** Furnishes a large percentage of shelled corn. Ears about 7 to 8 inches long, often two on a stalk. Stalks 6 to 8 ft. high. Makes good fodder and esilage. Price, \$1.00 per pk.; \$3.00 per bushel. Either shelled or in the ear.

SANFORD'S EARLY FLINT. It is a beautiful 8-rowed flint, with slender, straight ears, 10 to 15 inches long. Kernels are large and wide, and cob very small. Ripens in 75 to 85 days, and very prolific. Well adapted to the northern states, and largely grown in Wisconsin and Minnesota. Prices: pk., \$1.00; bu., \$3.00. Shelled or in the ear.

REID'S YELLOW DENT

Our Prize Winning strain of Reid's Yellow Dent holds the same relation to the yellow varieties as Johnson County holds to the white varieties; both are prize winners. In the class of yellow Corn Reid's Yellow Dent always carries away the Prizes. It is bred to conform with the score card better than any other yellow variety, and makes an almost perfect ear, fills exceedingly well at both ends of the ear. Grains well dented and set close together on the cob in very straight and well defined rows.

Our seed stock was procured from the Illinois grower who won the prize in his state for best 10 ears Yellow Corn at the 1910 Illinois State Corn Show. We purchased our seed stock direct from him, buying the very best that he could furnish. We have acclimated it here on our Ohio seed farms, and can be safely planted any place in the corn growing states. Matures in about 110 days.

Our crop of this prize winning strain of Yellow Corn is as fine as can be grown, and the seed stock well matured, and carefully selected. Growers will make no mistake in sending their orders to us no matter whether they grow Corn for the Corn shows or for market or for feeding purposes. This variety is one of the most popular of the yellow sorts. A heavy yielder of splendid specimen ears. A crib or load of this Corn is a fine sight to see, and pleases the grower as well as swells his bank account. A very heavy yielder—90 to 100 bushels per acre on good soil. Large packet 15c.; 1 pound 35c.; 3 pounds \$1.00, 1 fine ear 50c. postpaid; peck \$1.00; bushel \$3.00. Our stock of Reids is all shelled.

WHITE CAP YELLOW DENT CORN. Our new White Cap Corn comprises more good points than any other variety ever grown, being suitable to all climates and soils. It matures very early. The ears are large and well filled. It matures in ninety to ninety-five days, commands the highest market price, and, taking in all, is the best field corn grown to-day. As the name implies, it is a white cap corn—not a white corn, but yellow kernel with a small white cap, giving it the appearance at first sight of white corn. The ears are of good length, perfectly straight, small cob, with deep grains filled out to the very ends. Price, \$1.00 per peck; \$3.00 per bushel. Shelled, cannot furnish ear corn."

PLANT GOOD CORN

THE PRIZE CORN

THIS IS THE CORN WE GIVE TO YOU

The yield from this field (Plot No. 1,) was 117.1 bushels per acre, under the most adverse circumstances. From the time the Corn was planted until Sept. 1st we did not have rain sufficient to do the growing crop any good. The average crop in the neighborhood was not 50% of a yield. Yet this Prize Corn without fertilizer or extra care of any kind made the above enormous yield. Many of the ears weighed $1\frac{1}{2}$ lb at husking time. Every one who saw it pronounced it the best field of Corn they ever saw. Our exhibit of some specimen stalks and ears at the Ohio State Fair attracted more attention than any one thing in the Hall.

Note the great vigor of the stock and the immense ears of fine corn—One large ear to every stalk. No stalks "just hanging around" as Prof. Holden expresses it, or in other words every stalk has born an ear of corn and no barren ones in the plot.

Our Free Premium Offer.

After much thought as to the best thing to do with this valuable Corn we decided we could do the utmost good to give it to our customers absolutely without cost to them. In this way the seed would be distributed far and wide to every state in the Union, and no one in this way would be deprived of getting a start of the Corn that cost us \$350.00 for 10 ears. Pronounced by competent judges to be the best Corn on exhibition in the world. This Corn has been bred for years to conform to the score card, and it is a show Corn with a reputation of capturing more prizes than any other strain and variety. Beside being a show Corn it stands at the very top of the list as a high yielding variety, as recent tests have proven.

WE GIVE YOU THE CORN FREE AT THE RATE OF 10 GRAINS FOR EACH \$1.00 PURCHASE FROM OUR CATALOG AT REGULAR PRICES, 20 GRAINS FOR \$2.00 PURCHASE, 30 GRAINS FOR \$3.00 PURCHASE, ETC. IN THIS WAY EVERY ONE HAS EQUAL SHOW TO GET JUST AS MUCH OF THIS VALUABLE SEED AS THEY WANT. WE FEEL THAT THIS IS THE MOST LIBERAL OFFER WE HAVE EVER MADE OUR CUSTOMERS, AND WE HOPE YOU APPRECIATE IT AND WILL BENEFIT BY IT. DO NOT LET THE OPPORTUNITY PASS.

Get a start of this seed and capture your share of prizes next year.

NOTE.—We want you to report to us by December, 1912, telling how the corn did for you, giving crop harvested and other particulars. We can not give premium grains for less than \$1.00 orders.

Alfalfa, Clover, Timothy and other and Hay Forage Crops

Subject to Market Price Quotations. We can save you money. Quality of Stock considered.

ALFALFA.

The greatest crop on the farm to-day. It will yield more clear profit than any other crop grown. The U. S. Department of Agriculture says, "It will add \$100.00 per acre in two years to your land, beside the hay crop". Think of that. The hay alone will yield more profit than any other staple crop you can grow. The merits of this great plant are acknowledged by everyone, and it is being planted more generally than ever before. Valuable for all kinds of stock. The dairy, young cattle, colts, sheep, hogs, poultry all thrive and make quick gains. A field will last almost indefinitely when once well established. It can be cut three or four times each season, and reasonably expect 4 to 6 tons of fine hay per acre, which is estimated to be equal in value pound for pound to wheat bran. Our Alfalfa is carefully re-cleaned, and equal to any on the market. Price subject to market.

Medium or Red Clover.

The standard variety generally grown by farmers and seeded in spring with wheat, oats, etc. Also large mammoth clover.

ALSIKE OR SWEDISH CLOVER.—Perfectly hardy, and one of the very best of all the clovers, for cow pasturage, bee pasturage or for making hay. Deliciously fragrant and highly nutritious. Lasts for many years, on both wet and dry soils.

TIMOTHY SEED—"PINE TREE BRAND." "It stands alone." An extra pure re-cleaned brand of Timothy Seed at moderate cost. 99½% average purity test. The demand for high grade seed is increasing. Some retailers have made mistakes trying to secure trade by price instead of QUALITY.

The farmer has come to appreciate the economic value of high grade extra re-cleaned seed. It is gratifying to note the favor which "Pine Tree" Timothy has met throughout the entire grass growing sections of the country.

Our Timothy Seed is the best you can buy at any price. We will gladly quote you any time,

MILLET. (German) This variety is considerably larger than Hungarian and yields a much heavier crop, but is later and not so quick growing, consequently cannot be sown after the fourth of July in this latitude. Price on application.

HUNGARIAN. The quickest of catch crops for hay; may be sown up to August. Valuable when hay is short, or to follow some early harvested crop. Price upon application.

MAMMOTH RUSSIAN SUNFLOWER. An immense yielder—125 bushels of seed to the acre has been grown at less expense than corn. Very highly recommended for poultry. Best egg-producing food known. Good for horses.

Choice Stock.—By mail, postpaid; pkt. 5 cents; ¼ lb., 40 cents. By express or freight—10 lbs., \$1.50; 25 lbs., \$3.00; 100 lbs., \$10.00.

BEARDLESS BARLEY. This great stock food and fat producer is best egg producing food known. Sow early as possible in spring. Straw is about the height of the common barley, but is better, and will stand up on any land; with good land and season has produced 80 bushels per acre. Sow as early as you can; frost does not hurt it. Many will not grow barley on account of the long harsh beards which are so disagreeable in threshing, although it is a profitable crop. This is beardless and as easy to grow and handle as oats. It has hulls like the Mansbury or any other variety, and is a heavy cropper, yielding 50 to 75 bushels per acre, and the quality is excellent both for maturing and for feeding hogs and other stock. Try it for your poultry. Price, package, 10 cents, postpaid; per peck, 75 cents; \$2.00 per bushel.

COW PEAS are more tender than Canada or Field Peas and should not be sown until cornplanting time. Cow Peas, being of very rapid growth during the warm weather, can be sown as late as the middle of July with reasonable assurance of a profitable crop, either for harvesting or plowing under. We can furnish following varieties, Whip-poor-will, Clay and New Era. Price pk. \$1.25; bushel, \$4.00.

BUCKWHEAT. Is a "catch crop," easily grown between regular succession crops. Also valuable as a weed exterminator and green manure. Makes the genuine Buckwheat flour.

SOY BEANS.

Valuable for soiling, hay and silage. A great soil builder and food plant. Popular everywhere. Our stock is fine. Heavy yielders, 20 to 30 bushels per acre, and do not shell in handdling. Sow middle of May to June when the ground warms up good. Price pkt., 10c.; peck, \$1.25; bushel, \$4.00.

BROOM CORN. This is a big money making crop and can be grown successfully in all locations. The demand exceeds the supply, which causes the present high prices for brooms. You will find ready market for all the good Broom Corn you can grow. Pkt., 10c., quart, 50c., postpaid; peck, \$1.00; bushel \$3.00.

SCARFF'S

REGENERATED

(GARTON STRAIN)

SWEDISH SELECT OATS

We have been growing the Swedish Select Oats to the exclusion of all other varieties for several years. We find it far superior to any other variety we have ever tried. We have the banner crop this year. Last spring we obtained 500 bushels seed stock of the genuine Garton Strain of Swedish Select, and now have the finest and best crop of Seed Oats in the country to offer to our customers for 1912.

REGENERATED SWEDISH SELECT. The heaviest yielding Oats in the United States.

REGENERATED SWEDISH SELECT. Among the earliest to ripen.

REGENERATED SWEDISH SELECT. The stiffest straw of any Oats grown. Our stock is bright and clean. 60 to 75 bushels per acre is no uncommon yield. Try at least 10

bushels. We find this new Regenerated variety to be a most wonderful oats, and the claims made by the Agricultural Department are not too strong. At a test at the Wisconsin Agricultural College, the Swedish select proved the most satisfactory of 36 varieties tested. The yield is simply enormous, and they weigh from 38 to 40 pounds per measured bushel. The straw is stiff, coarse, and is noted for its power to withstand lodging. The grains are large, plump and thick, with good, long, well filled heads. The plant makes a good growth and develops a splendid root system, making it one of the best drought-resisters in dry seasons. It is among the earliest to ripen and succeeds throughout the entire country. Every farmer receiving our catalog should try at least a few bushels of this variety. Price 50c. per peck, \$1.25 per bushel; 5 to 10 bushels, \$1.10; 10 to 20 bushels \$1.05 per bushel. Over 20 bushels \$1.00 per bushel.

WE GIVE 10 GRAINS OF THE \$350.00 SEED CORN FREE WITH EACH \$1.00 PURCHASE FROM OUR CATALOG—IF YOU DO NOT GET YOUR SHARE, IT IS YOUR OWN FAULT.

GARDEN ROOTS

No Garden Complete Without Them. A Fine Collection

PALMETTO ASPARAGUS, THE LARGEST AND MOST PROFITABLE VARIETY

Asparagus Culture

A deep, rich soil is indispensable to secure large, heavy stalks. Plant in rows four feet apart, with the plant, three feet distant. Set so that the crowns are about an inch below the surface. Top-dress annually in the fall with stable manure and fork under in the spring.

COLUMBIAN MAMMOTH WHITE A distinct variety of mammoth size, great yield, and superior quality; remarkable for the clear whiteness of its stalks, which retain their purity and color until several inches above the surface. Price 25 cents per dozen; 75 cents per 100; \$5.00 per 1,000.

PALMETTO, BARR'S MAMMOTH AND CONOVER'S COLLOSSAL. The standard market sorts, all green and tender. Price, 25 cents per dozen; 75 cents per 100; \$5.00 per 1,000.

\$1.00 COLLECTION OF CHOICE GARDEN ROOTS, POSTPAID.

We will send you this collection by mail, postpaid for only \$1.00: 25 Columbian Asparagus; 25 Donald's Elmira Asparagus; 12 Sets Horseradish; 6 Myatt's Linneaus Rhubarb; 2 Holt's Sage Roots.

\$350 for 10 Ears of Corn.

You know about this purchase, as every farm paper and magazine published an account of it last spring. "A fool and his money are soon parted" was thrown at us more than once. We knew why we bought it, and we always considered it a big bargain. We bought it that we might share up with you. To have enough to go around we had to plant the original 10 ears. Now we are going to distribute it in the ratio of 10 grains to each \$1.00 purchase. We hope you appreciate the offer. One plot of this Premium Corn yielded at the rate of 117.1 bushels per acre. Our corn booklet tells about yield, culture, etc., free to corn growers everywhere.

SAGE.

HOLT'S

Mammoth Sage

HOLT'S MAMMOTH. Plants of strong growth of unusual substance, strong flavor and of superior quality. Price, 10 cents each; 75 cents per dozen, postpaid; \$4.00 per 100, by express.

SCARFF'S MONEY MAKER HORSE RADISH

This new variety makes an enormous yield and is so early that it can be marketed before the common kind is ready; beside the roots are much larger and whiter. The roots sell in market at 5 to 10 cents per pound, and yield as high as 8,000 lb. per acre. It requires about 10,000 sets for an acre, and the crop is ready for the market first year. It is easy to grow; every plant will live. Net profit \$300.00 to \$600.00 per acre. Try at least 1,000 sets if you cannot plant an acre. It is ready sale in any of the large cities. Price of good roots, 25 cents per doz. postpaid; \$1.25 per 100 by express, \$10.00 per 1,000.

HORSERADISH (Common)

This useful condiment is easily grown and prefers a rich moist loam. Price, 25 cents per dozen; 75c. per 100; \$5.00 per 1,000.

Rhubarb Culture

People are just beginning to realize the great profit in the culture of Rhubarb in the open field also as a forcing crop for winter. It yields enormous profits. One great beauty about growing it any one can succeed, as the culture is very simple.

For forcing the roots are taken up in November, and allowed to freeze for a few days and nights. The roots are then taken to the cellar or shed and packed very closely together, using just enough soil to fill the spaces and cover the crowns. Then keep moist, not wet, and have the temperature 50 to 70 degrees. In four or five weeks the crop is ready for market.

You can get about three cuttings during the winter when prices are high. \$100.00 to \$300.00 worth can easily be grown in an ordinary home cellar. The heat from a lamp is usually sufficient in a warm cellar. Old sheds or caves with stoves in them also make excellent places for forcing.

Plant in early spring the roots wanted for forcing in the fall. Cultivate well and secure large clumps. Our mailing size roots make excellent stock to grow one year for forcing stock. A few hundred roots planted this spring would make a splendid start of stock for next winter's forcing.

Price of good roots, 10c. each; \$1.00 per dozen, postpaid; \$5.00 per 100; \$30.00 per 1,000 by freight or express.

"The Story of 10 Ears of Corn"

A FREE BOOKLET FOR CORN GROWERS.

Did you get this book? It is free to everyone. It is valuable and should be in the hands of every corn grower. Remember you get 10 grains from prize winning stock for each dollar purchase. Get a start of this corn; win at your corn show.

RHUBARB PIES ALL WINTER
USE ONLY NEW GROWTH CLUMPS

Scarff's Fine Seed Potatoes

Our Miami Valley Seed Farms produce the finest seed potatoes on the market and we are offering our customers a very select lot of seed this season. Nothing pays so well to change the seed as potatoes. Why not plant the best and get a big increase in the yield of your crop? Our seed will increase your yield 50 to 100 bushels per acre.

RURAL NEW YORKER.—Well known now the country over, and very largely planted for a profitable main crop. "Dusty Rurals" always bring the top price in Chicago market. Will do well anywhere. Great yielders. Price, per peck, 75 cents; bushel, \$2.00; barrel, \$5.00.

Seneca Beauty Potato.

SENECA BEAUTY POTATO—A grand good medium plant potato, and too much has not been said in its praise. Its beautiful and distinct appearance sells it in any market, and its fine table qualities please all. The tubers are large and smooth, with few eyes close to the surface and of a beautiful pink color. Uniform in size and shape, scarcely any small ones. Vines rank and healthy, and loaded with beautiful blossoms. Good keeper and heavy cropper. Price, peck, 75 cents; bushel, \$2.50; barrel, \$6.00.

CARMAN No. 3—It is the best late variety, and one of the greatest yielders; large, oblong, slightly flattened. This splendid potato has a record of having produced over two hundred bushels from one barrel of seed. Per peck, 75 cents; bushel, \$2.00, barrel, \$5.00.

Other Choice Varieties

BLISS EARLY TRIUMPH—Very early. Red skin; white flesh. Price, 75c. per peck; \$2.50 per bushel; barrel, \$6.00.

BANNER—Round, Large, good yielder. Price, 75c. per peck; \$2.00 per bushel; \$5.00 per barrel.

IRISH COBBLER—Very early; good yielder; favorite market sort. Price, 75c. per peck; \$2.50 per bushel; \$6.00 per barrel.

VERMONT GOLD COIN—Almost blight proof; heavy yielder; yellow skin; good for main crop. Price, 75 c. per peck; \$2.50 per bushel; \$6.00 per barrel.

POTATO EYES BY MAIL POSTPAID

For several years we have been furnishing our customers good sound potato eyes by mail. It saves high freight rate and allows you to get a start of new varieties for a mere nothing. These potato eyes give very best of satisfaction. Hundreds of customers were de-

lighted with the result last season. Remember they come by mail postpaid, and sure to grow. Try our new kinds. At a very small expense you can grow an experimental patch for exhibition. It is very interesting and profitable. 75 eyes should produce a bushel of good sound potatoes.

They grow fine, too**

Three Bushels Fine Potatoes from 75 Eyes

I raised almost 3 bu. of fine Potatoes from 75 eyes of Six Weeks Potatoes that I got of you last year. Never had anything to come in better shape than the little bill of stuff last year.

A. J. SCOTT.

“PIQUA CHIEF” THE GREATEST YIELDER
THE FINEST COOKER
THE BEST QUALITY

“PIQUA CHIEF.” This valuable new potato originated at Piqua, Ohio, and is pronounced by all who have grown it to be the greatest yielder on earth. The tubers are large to very large with few small ones. It is a red skin potato like Seneca Beauty, but its strongest point is its splendid cooking quality. It is highly endorsed by the very best authorities for table use. Miami County Horticultural Society passed resolution commending its fine quality. Season medium to late; tubers smooth and rather long; strong grower almost exempt from bugs, and absolutely blight proof owing to the vigorous growth of vines. Price per peck, 75c., per bushel, \$2.50; per barrel, \$6.00

SCARFFS EXTRA EARLY SIX WEEKS POTATO

A valuable early variety for market. Gardeners and all others who grow potatoes for home or market will prize this potato ahead of all others on account of its extreme earliness, good table qualities, fine size and shape, great productiveness and splendid keeping properties. The potatoes cook fine, and dry from the time they are large enough until late spring. Size is medium, skin light flesh color, shape round. They are perfect beauties, heavy yielders, and a sure cropper. This potato, strange to relate, keeps sound, solid, and fresh late into the spring, equal to any potato that we ever saw.

The earliest potato on record. Do you want to be first in market with potatoes? you know the price is always higher for the early crop. Others may equal it in size, quality or productiveness, but in earliness six weeks' market is unapproachable. Price, per peck, 75 cents; bushel \$2.50; barrel, \$6.00

EARLY OHIO. One of the Standard Early varieties, good size, round, smooth and good cooker. Valuable for market. Price per peck, 75c; bushel, \$2.50; barrel, \$6.00.

**PRICE**

“KANT KLOG” STYLE C

With Galvanized Steel Body

With Polished Brass Body

6.50

SEED END

the knife on upper side of pressure lever, thus removing the cause of so many empty potato hills in your potato patch. Then, according to size of potato, place it on knives so that when lever is pushed down it will be cut into either two, four or six: or, if a very large one, split it and cut each half into as many pieces as its size will require. From six to eight bushels can be cut with it in an hour. The saving in time will more than pay for this cutter the first season it is used.

THE MILLER SEED POTATO CUTTER. 24 inches long, 8 inches wide, weight 8 lbs. and cutter will last a lifetime. Can you afford to be without one? The construction of our seed cutter is very simple, and is built for accuracy as well as convenience. It is strong and durable; the knives are of good quality steel and are fitted to grooves in frame, making them easy to remove if necessary. Seed potato cutting has always been a point on which a great many arguments have been produced, some even contending that hand cutting was necessary. The chief reason for this contention, however, being the high price charged for machines of this type in the past. The introduction of **THE MILLER SEED POTATO CUTTER** does away with this argument, as it is the best machine on the market today at the lowest price.

The Miller Seed Potato Cutter shown herewith has all the essential features necessary to a first-class tool. It will cut any size potato in pieces uniform in size, thereby insuring more accurate planting when power planter is used. The operator, to get the best results, will pick up the tuber, look for the seed or blossom end, passing it over

thus removing the cause of so many empty potato hills in of potato, place it on knives so that when lever is pushed six: or, if a very large one, split it and cut each half into six to eight bushels can be cut with it in an hour. The latter the first season it is used.

PRICE \$2.50

LICE EXTERMINATOR

FRIEND OF THE HEN

Our lice killing Nest Eggs are almost an exact imitation of the real hen egg, and yet contains a powerful disinfectant, which is guaranteed to expel lice and vermin.

SAVE MONEY.

Much of the disease among poultry is caused by lice. Save your money and chickens by using our Lice Killing Nest Eggs. They will do it. Try them. Positively guaran-

min. We can furnish these in pure white or tinted a natural brown in imitation of natural eggs. Price, 10 cents each; \$1.00 per dozen, post paid. Gross (144) by express not prepaid, \$5.00; (a good chance for agents).

Golden Wyandottes.

We love poultry but breed one kind only. We consider the Golden Wyandotte the best general all round breed on the market. Splendid winter layers, good size, healthy and fine table fowl. We have a splendid yard of fowls. A few cockerels to spare \$2.50 each. Eggs for hatching \$2.00 per 13.
